### Look Away Lenses

When 23-year-old Rita Jensen flunked a drivers' test last week before thousands of Danish television viewers, her home town police chief took away her license. Not only will the case go to parliament now, but a Copenhagen newspaper has demanded the chief take a driving test. He supposedly committed two traffic violations this past week. The chief admitted his errors, but said he didn't know. The newspaper noted that neither had Miss Jensen nor her television test, - part of a traffic safety series.

### Appeal

Soviet women have appealed to the 18-nation disarmament conference in Geneva to stop all nuclear weapons tests. The official Soviet news agency Tass says the appeal was made by the committee of the Soviet women... which also said... these are the only... the peaceful and... co-operations... of the Soviet Union in the question of the Atomic blockade of Cuba saved mankind.

### To Take Case To Vatican

The New Orleans woman excommunicated from the Roman Catholic Church for publicly opposing desegregation of parochial schools says she may take her case to the Vatican. Mrs. B. J. Gallit, Junior, says she wrote Pope John the 23rd asking for an audience. The mother of two says she will wait for an answer before deciding when to go to Rome... but that she believes she'll get a trial even if she gets it... human judgment... arrest me for sitting on the Vatican steps.

### Fourth Husband

Blond actress Zsa Zsa Gabor was married Monday in New York City to her fourth husband. The 37-year-old Zsa Zsa wore a pink dress and mink coat for her marriage to industrialist Herbert Hutter. She apologized to news men, saying: "It's not my best mink, but it's the only one that matches my dress."

## Doris E. Watson weds Gary C. Houck

Dave Engs, Port Perry

Pictured above following their wedding in Trinity United Church, Uxbridge, are Doris Edith Watson, daughter of Mr. and Mrs. Orval Watson, of Little Britain, and Gary Carl Houck, son of Mr. and Mrs. Miss Houck, of Uxbridge. The happy couple are making their home in Uxbridge.

Trinity United Church, Uxbridge, was the scene of a pretty rainbow wedding, on August 25, 1962, when Doris Edith Watson, daughter of Mr. and Mrs. Orval Watson, of Little Britain, was united in marriage, in a double ring ceremony to Gary Carl Houck, son of Mr. and Mrs. Miss Houck, Uxbridge.

The church was decorated with white and pink gladioli for the early afternoon ceremony which was performed by Rev. D. R. Jay, B.A., B.D., of Uxbridge.

Therelude which included "The Wedding Prayer" and "Spring Song" and "O Perfect Love" was played beautifully by the organist, Mrs. Burton Colquhoun.

Guests sang the first verse of "Praise My Soul The King of Heaven" as the processional reached the altar. After being seated they were honoured with a solo "The Lord's Prayer" by Mrs. C. Colby, who at the time of the signing of the register also sang "Whom God Hath Joined Together."

Given in marriage by her father, Mr. Orval Watson, the bride wore a floor-length satin gown designed and made by herself. Her dress, long-sleeved sheath with a floor-length overskirt which softly fell into drapes at the front and sides and gathered into a bustle at the back, had a boat neckline with a low back neckline with a pink nylon chiffon accented the neckline.

The maid-of-honor was Miss Marilyn Watson, the mistress of honor was Mrs. Myra Clarke and the bridesmaids were Misses Joyce Watson, Judy Houck, Marie Watson and Linda Watson. They were gowned in similarly styled sheath dresses which were fashioned with boat necklines, low backs and three-quarter length sleeves. Each dress was in a different pastel color which were peach, green, pink, mauve, yellow and blue. White nylon chiffon overskirts were worn over the sheaths. Large flouncing hats were carried by two rows and they centred the individual attendants dresses which were also made by the bride with assistance from her attendants.

## NOTICED... along the way

A reader who has been following developments at Barrie's North Collegiate where students have refused to stand up during the playing of "God Save The Queen" says that when he went to school, a refusal to obey orders was dealt with by disciplinary action. "I am afraid," he writes, "if I were the principal, I would have been more comfortable standing up than sitting down I finished with them."

A subscriber who recalled reading the observation made by a visitor to Lindsay to the effect that he counted 18 street lights which weren't working as he drove around town, says "It's up to the residents to report these matters... it has been my experience that the Lindsay City Council will have lights put back in working order the very next day if someone will just advise them."

Lindsay's Waterworks Superintendent R.J. Reynolds says he believes "The Water Cure" is one of the easiest ways for a person to regain their perspective. He passes along the suggestion for taking a walk in the woods, where the things which are contained in the following list of verse: "Sometimes when you're feeling important, Sometimes when you yawn in bed, Sometimes when you take it for granted..."

## Milk price stays same for present

The price of milk in Lindsay and area, as supplied to consumers by Silverwood's and Molokini's dairies, will remain at 24¢ per quart at present. This was announced today by Managers Alex McKenney and Lloyd McMillen respectively.

An increase of one cent per quart was slated to become effective on November 1st but this was quashed by a notice received this morning from the Milk Industry Board of the Department of Agriculture saying that Premier Roberts had taken action to delay the increase in the price of milk to producers and consumers.

The meeting was called at a cabinet meeting Wednesday. An injunction was taken with the approval of the Minister of Agriculture, calling for a moratorium to allow time to study the situation, the notice said.

Early in October, local dairies had received word from the Milk Industry Board that effective November 1st, they would have to pay 10¢ more for milk to consumers. This "Milk" made it necessary to inform our customers that the price per quart had been increased one cent, officials stated.

As the milk industry is recovering from the Milk Industry Board the price per quart will meet the present 24¢ they added.

The reception was held in the church banquet hall where the bride's mother received wearing a sheath jacket imported of turquoise imported brocade with white accessories and a corsage of pink roses. The groom's mother assisted in a green corsage with white and brown accessories and a corsage of yellow Tansan roses.

For travelling the bride wore a three-piece double knit pink suit with white accessories and a corsage of white gardenias.

Following their trip to Florida the happy couple will reside in Toronto.

Guests were present at the blue peau de soie and had a wedding from Ottawa, matching headpiece. She carried a bouquet of pink roses.

# STOP!... killing yourself

By Peter J. Steinhorn, M.D., F.A.C.P.

## UPSIDE-DOWN STOMACH

Dr. Steinhorn's I have had a number of X-rays for gall bladder trouble and also a G.I. series. The doctor found no stones either time. But he said the last X-ray showed that I have an upside-down stomach. He tried to explain but I still don't know what an upside-down stomach is.

I have had indigestion for a long time and always belch a lot. At night I have gas spells. Could these symptoms be due to the upside-down stomach? Or do you think I have a bad gall bladder? You confused me.

Comment: Who wouldn't be? Just the same itself, upside-down stomach is enough to give anybody the willies. My guess is that it is just your gall bladder that is causing your trouble. As your doctor says, repeated X-rays have been negative. But as for the stomach, X-rays show you have enough abnormality there to give you the gas spells and indigestion.

Usually, the mislaid term "upside-down stomach" means that the patient has an hiatal hernia. Due to a weakness in the diaphragm, a portion of the stomach may slip up into the chest cavity. Usually it is not a

serious condition, but it can be an illness other than the stomach. I tell such patients not to eat any heavy meals, especially before retiring, and to sleep "high" on three or four pillows, to prevent the stomach slipping into the chest. Sometimes these patients need sedatives and antispasmodics to relax the stomach.

If you don't overburden your stomach, and treat it with respect - chances are that such medicinal treatment alone will keep the hiatal hernia under control. However, there are some cases which yield only to surgery. It's better to give medical treatment a chance first.

Dear doctor, I have osteoarthritis and am being treated with cortisone. I have been told that aspirin is just as effective. What do you think?

Comment: In the common form of arthritis called osteoarthritis and due to degenerative changes found in most people after 40, I think that if aspirin does the job of giving comfort, 750 per tablet is fine. But that's not the only way to get your doctor to help - even though it may seem silly to you.

Perhaps a small dose of aspirin in early afternoon will do the trick. Perhaps

## SOMETHING NEW UNDER THE CRUST

If little Jack Horner had put his thumb into this pie, he'd have had a pleasant surprise, indeed, for he'd have come up with a tender morsel of canned salmon instead of the fabled plum of the old nursery rhyme. Salmon Bread Crumb Pie can be prepared as follows: 1/2 cup salmon, 1/4 cup butter or margarine, 2 tablespoons vinegar, 1/4 teaspoon salt, 1/4 teaspoon pepper, 1/4 teaspoon Worcestershire sauce, 3 cups soft enriched bread crumbs. Flake salmon, but don'tasting qualities are good. The liquid contains heat as filling matter as well as good flavor. Blend sandwich spread into salmon. Melt butter and spread over salmon. ## Lindsay firemen champion Muscular Dystrophy campaign

During the week of November 14th the Muscular Dystrophy Association will make its ninth annual appeal for funds to further its medical research.

The campaign for Lindsay and area, will be carried out again this year by the Victoria County Mutual Aid Firefighters' Union comprising Lindsay, Kirkfield, Beaverton, Little Britain, Oakwood, Oranmore, and Beaverton.

The association finances the work of over 150 Canadian scientists across the country who are probing the mystery of this crippling disease of childhood.

The connection between MDAC and the fire departments of this country, is unique.

It arose from a decision of the International Firefighters Union to keep supporting the work of the association until the disease has been conquered.

Each year therefore, the fire departments play a leading role in MDAC's fund raising campaign.

1 MINUTE, 57 SECONDS

Timmy Walker—Britain's "blond bombshell" heavy-weight—kayaked Newfoundland lumberjack Alphonse Lausga at one minute 57 seconds of the first round of an eight round bout last night at the Empire Pool at Wembley, England. The Canadian was felled from a wild right cross which appeared to catch him on the top of the head. The crowd roared of 14,000 and booed the Canadian from the ring. He did not appear hurt from the only real blow struck by the Londoner. Lausga fell to his knees, looked up at the referee and his fourth wife. It was Walker's fifth fight and his fourth win. He drew the other. Lausga appeared for the 21st time and suffered his fourth defeat.

## SLUGGER TO BOXER

Britain's Terry Downes switched from slugger to boxer and pounded out a ninth-round technical knockout over Phil Joyce of Portland, Oregon, a Wembley, England, last night. The bout was halted at 30 seconds of the sixth round because of Joyce's bad right eye.

## IN ACTION

All six National Hockey League teams are in action tonight after two nights off. League leader Detroit is at second place Chicago. . . Montreal at Toronto. . . and Boston at New York.

## AMERICAN LEAGUE

American Hockey League action finds Rochester at Buffalo, Cleveland at Hershey and Springfield at Pittsburgh. Last night, Quebec and Providence battled 1-1 tie in overtime and Baltimore prevailed Cleveland 4-2.

## NO "UNTOUCHABLES"

New York's New President George Weiss says there are no "untouchables" on the team that finished in last place in the National League. Weiss is hopeful of swinging a number of deals with American League Clubs when the inter-league trading period begins on November 31.

## NEWEST MEMBER

Forty-one year old veteran hockey Steve Brooks is the newest member of the Jockey's Hall of Fame at Pimlico, Maryland. Brooks, who becomes the 11th Jockey elected to the hall, pulled two more votes than Bill Hartback.

## PENANT MISSING

A pennant is missing from the flagpole at New York's Yankee Stadium—and New York Giant officials are baffled. One Giant spokesman couldn't say how anyone could get it down. The pennant was 97 feet by 15 feet . . . weighed 100 pounds . . . and took five men to get it up on the flagpole. The spokesman said—"It was so heavy it didn't even flap in the wind."

## Poet's Corner REST ROOMS

Once there was a place in our fair town, Where we could rest and sit around. Now the police have got the space, For other humans there is just no place.

Of course the police have their own time, But do you thing it is very kind To bar others from the spot. When are the ones who pay the shot?

When our friends come into town, They often want to sit down. Where in the world is there to go, But to the beer room or the show.

They don't want anyone there Unless they pay well for a chair. So what do you think they are going to do? Stand around or just sidoo?

Some people think it is far from fair, To bar the public out of there. I know you can't satisfy all, But many think it rather small.

When a mother with a small child, Comes into town for a little while. She wants to rest before she shops. Where will she find a place to stop?

In the beer room or the show? Most mothers would say: definitely no. Our town should provide a comfortable spot For folks to rest when they come to shop.

We certainly want our town to grow Most anyone would tell you so. So to rob them of a place to rest Is just one thing but the best.

Bill McCarthy.

The guest for the evening was John Eakins with members of his staff. They demonstrated the hair fashions on the models explaining how kindly can tend her hair, also tips on hairdressing in general. Favors of San Souci cosmetics were given at the conclusion of his talk.

The meeting was adjourned followed by a luncheon and a short social time. Most of the girls then proceeded to the Canadian Legion where they decorated for the Rhye Ball. Dear Readers:

In our continuing efforts to bring you up-to-date news and interesting articles we spare neither time nor expense. However, every once in awhile something happens which is beyond our control such as Fenwick Finch.

Finch is undoubtedly one of the greatest unpublished writers of his time. He has more unpublished material than you would believe. Retiring from the writing world, (which he never entered), some 30 years ago was his greatest contribution to writing. Finch however, feels that the world is now ready for him and in spite of all suggestions otherwise is coming out of retirement.

From time to time his columns will appear and if you readers have any momentous problems—write to Finch and he'll air them for you.

So much for the warning—Finch will soon be with you.

## Fisher-Venner Nuptials

Kenlin Studio, Lindsay.

Pictured above signing the register following their wedding at Pleasant Pt. (Mariposa) United Church, are Mr. and Mrs. Martin Thomas Fisher. The bride is the former Patricia Doris Venner, daughter of Mr. and Mrs. Thomas Arnold Venner, of R.R. 3, Little Britain and the groom is the son of Mrs. Jane Fisher, of Toronto. The newweds will reside in Segreave.

Pleasant Point (Mariposa) and Mrs. Thomas Arnold Venner, United Church, was decorated for the wedding with baskets of gladioli and the groom is the son of the dabbles which were in bronze Mrs. Jane Fisher, of Toronto, and gold colours on Sopleys. Rev. E. McNeil, performed her 22, 1962, at 4:30 p.m., the ceremony and the soloist when Patricia Doris Venner was Kenneth Hallett, of Sonys, of Little Britain and Martin who sang "The Wedding Song" Thomas Fisher, of Segreave, and "O Perfect Love" were united in marriage. The bride was accompanied by Mrs. Brenda is the daughter of Mr. Wm. Clarke, of Little Britain.

Given in marriage by her father, the bride looked charming in a floor-length gown of steel crepe fabric. The bodice of the dress was styled with a scoop neckline and long lilypond sleeves and the neckline and the corners of the overskirt were trimmed with imported handmade lace. The overskirt which swept back into a chapel train was accented with a bustle. Her headpiece of lace which matched the trim on her dress held a bouffant veil of tulle illusion which fell softly to the shoulders. She carried a bouquet of white lilies and stephanotis.

The maid-of-honor was Miss Carolyn Shier, of Lindsay, now Mrs. T.A. Lowery, of Oshawa, and the bridesmaid was Miss Beth Venner, sister of the bride of Little Britain and Mrs. James McCormack, cousin of the bride, of Toronto. Miss Robin York, a 2-year-old, of Lindsay, was flower girl.

The maid-of-honor and the bridesmaid were groomed in identically styled dresses which were in colours of gold, green and brown peas de sole. The dresses were styled with bell-shaped skirts, scoop necklines and elbow-length sleeves. The little flower girl was in suit with pink colour accents and a corsage of Cymbidium orchids.

On her return, the happy couple will reside in Segreave. Out-of-town guests were present at the wedding from London, Hamilton, Toronto, Owen Sound, North Bay, Bowmansville, Hampton and Ajax.

Due to the fact that progress has been impeded in rebuilding the Keweenaw arena hockey and skating suffered a temporary set back but when the arena is thrown open to the public it is being predicted in some quarters that enthusiasm will rise to the point where it will not be seriously affected by the shorter season. While young hockeyists all around Lindsay have been having workouts on artificial ice, the coming stars in Lindsay will have to really dig in to come up to par.

With the opening of renovated arena not too far distant, sports enthusiasts say they hope there will be more

Toronto and Thomas Lowery of Lindsay.

For the reception in the church kitchen, the bride's mother received wearing a moss green brocade suit with black shoes and bag and a corsage of yellow and bronze mum.

The groom's mother was in a navy blue dress with matching cape, a hot pink hat and gloves and a corsage of pink roses.

For a honeymoon to Lake Placid, New York, the bride wore a coral-coloured wool dress and a corsage of Cymbidium orchids.

On her return, the happy couple will reside in Segreave. Out-of-town guests were present at the wedding from London, Hamilton, Toronto, Owen Sound, North Bay, Bowmansville, Hampton and Ajax.

## Sports Today!

enthusiasm and support on the part of the general public. Minor hockey they point out, deserves every encouragement possible and only by keeping this program afloat, can Lindsay ever hope to sail again on the seas of hockey success. Their ambition is to see Lindsay have at least a Junior O.H.A. team to compete with such teams as Cannington, Bridge, Port Perry and possibly Bobcaygeon, Cannington and Lindsay, which have had championships in recent years, have started from the bottom up and Lindsay will have to do the same. On the credit side for a starter are a number of sports-minded citizens who are willing to devote time to the development of minor hockey in Lindsay.

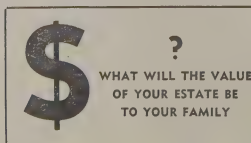

## Reference recalls hockey history

The reference in this paper to the visit of Col. John McCamus, of Toronto to Lindsay recalled to the memory of a local hockey enthusiast the days when he played hockey with the Lindsay Collegiate Institute and later when he was a member of the St. Michael's College Allan Cup Champions. Other Lindsay boys on the team was Peter Spratt and Jerry Ladame.

## Report Minden residents wondering about water levels as winter nears

Several residents of Minden like to see more winter entertainment in the village and district. One businessman remarked: "It is tough going trying to make a comfortable living for the year out of seven weeks of summer business."

A resident of Cameron—W. Grogan—is reported to have plans underway to build a skill to attract winter visitors.

Efforts are being put forth to improve curling conditions on natural ice although some enthusiasts are reportedly enjoying the idea of installing artificial ice.

It is also expected that there will be good hockey in the village this winter, and that gradually Minden will build up a team similar to one which did so well a few years ago.

Residents remember vividly the situation a year or so ago when the water levels were so low that private water pipe using river water were frozen and the supply was seriously curtailed and hardships encountered.

## Plan testimonial dinner for Victoria's county clerk

A testimonial banquet in factory and at the November home of a county official with session, the last for this year, a 40-year record of service, as he will announce his intention as retiring wardens.

From usually well informed sources, it was learned Versulam's Beve Mac Kennedy and Beve John Childs of Dalton will be in the race for the wardenship.

The banquet is to recognize the service of Victoria County Clerk F. L. Widdon.

At present, Warden John and it is expected Deputy Alton, are serving the county well. Mr. Widdon will be being finalized very satisfactory.

## NOTICED along the way

Building construction moves S. (top picture) and now it is virtually complete. The new federal building, Russell and Cambridge Sts., (lower picture) is also advancing rapidly as workmen rush to get much of it "under cover" before the winter sets in.

Sunshine may be more or less at a premium as winter emerges with but hydro and appliance dealers are doing their best to compensate for its lack. Mr. and Mrs. J. ## Fenelon Falls Public School seeks nurse replacement

Mrs. Wm. Valentine (nee Sandra Hargrave) has been appointed Nurse Teacher as of September 1st.

Mrs. Barbara Nicholson has been appointed to fill vacancy on the school teaching staff, vacated by M. A. Gillis.

Trustee Gene R. Wood has been appointed chairman of a committee to undertake preparations for Zone Convention School for Trustees to be held in Fenelon Falls May 1963.

## "Operation Kirkfield"

"Operation Kirkfield" was carried out this week with a troublemaker 100 feet long in the front of the school. Wood, oil and infra-red electric heating was under the board's consideration for heating of the new Eldon warehouse but nothing was decided.

There was no decision made by the Board Re the taking over of four township police roads—two in Mariposa and one in Fenelon and the other in the boundary between Versulam and Emily.

## Public skating is postponed

There will not be any public skating at the Lindsay Arena for about another week. Plans to go ahead with the hockey skating schedule hit a snag when workmen were unable to complete work on arena renovations as they originally planned.

Public skating, originally to commence this weekend, will probably be delayed one week. Counsellor Robt. Payne said Friday.

A "practice hockey session" Thursday night prompted the decision, he said, when it was found impractical with women's equipment still on the site.

There is still considerable exterior work to be completed on the building.

## Some demand lowering, others not insisting

There's going to have to be some "lowering" take place at East Oakwood Cemetery.

As a result of investigations carried out at the cemetery, several graves have been found to be shallower than the prescribed depth—five feet, two inches for wooden rough box enclosures and five feet, seven inches for concrete boxes.

According to those close to the situation, several graves have been found to be on the shallow side and relatives are none too happy about the discovery.

As a result of isolated complaints, relatively recent burials have all been checked and many found to be on the shallow side, some as much as 15

inches or more. The cemetery is currently canvassing the graves of relatives.

Some people, the board says, have indicated they will not have the grave relevelled if they are satisfied the coverage is adequate. Wooden-type rough boxes are reported to be tricky to lower if they have been in the ground for any length of time because of the strain placed on them when an attempt is made to raise them to permit further digging.

The cost of digging a grave in East Oakwood Cemetery has been \$25—about \$4 a foot.

# STOP!!...killing yourself

By Peter J. Steinbrech, M.D., F.A.C.P.

**ULCER BEARS**  
The day is long past when people wear the badge of ulcer with pride. Like gout there is no longer any "natus" connected with stomach ulcers. You will recall that years ago very king, dukes and the very wealthy were supposed to be susceptible to such affliction as gout. Now we know that the carpenter who repairs the roof of the palace, and the plumber who repairs the pipes—as well as the doctor who treats the high-and-mighty—can come down with the gout, too.

And so it is with ulcer. It is not where you live (Ireland or New York—the supposed ulcer-capital of the U.S.) but what you are that determines whether or not you'll suffer with ulcer.

In my experience I have found ulcer patients to be typically tense. Dr. J.C. Yonkin put it this way: "It would seem that people ulcer who are individuals whose make-up may be determined by rigidly over-conscientiousness, and even intolerance, in individuals who are overly honest and meticulous, usually dynamic and often aggressive."

There has even been some

question lately whether or not top executives are more prone to ulcers than others.

Some evidence says that they have less trouble than their employees. This is understandable. Those on the lower rung, climbing up, necessarily have their hands stepped on occasionally—and this produces resentment and animosity. And these characteristics are like gasoline for the fire of ulcer.

Although it is evident that in the care of an ulcer you will have better chance of improvement if you follow your doctor's directions concerning diet and medication—there are other important considerations. Perhaps even more important.

You must learn how to come to terms with yourself as a person. As with the people in your environment, that means getting along at the office or shop or at home with the human being you find there. But not expect any of them to be perfect—neither are you.

Keep remembering that an ulcer feeds on tension and resentment, and that relaxation and peace of mind favor healing (and prevention).

Dear Dr. Steinbrech: After

observation and X rays my mother, who is 79, has been told that she has cerebral arteriosclerosis. Is there any special diet? She loves butter and cream and other foods that are supposed to be bad for this condition. She really has no complaints except occasional dizziness and I wonder if we should leave her alone and not bother with dieting at this stage?—R. B. Comment: In a common sense way you have arrived at what I consider is the correct answer. I have made it a rule (of course there are exceptions) not to fiddle with the way of life of a person who has reached his seventies or eighties. Of course, if there is high blood pressure, it is advisable that such a person cut down on salt; if there is diabetes, a low carbohydrate diet is advisable. But in a general way, I say leave well enough alone. Taking away your mother's fatty food will, I think, upset her physical and emotional equilibrium more than it help prevent the slow progress of her cerebral arteriosclerosis.

## Women's League donates \$600 to church

The November meeting of St. Andrew's Women's League was held at the home of Mrs. Bert Walden with a good attendance. Rev. Locke was guest at the meeting.

The meeting was opened by the acting president, Mrs. W. Pogue, with a hymn followed by the Lord's Prayer.

The minutes were read by Mrs. Sam Endicott in the absence of the secretary, Mrs. George Hickson. The treasurer, Mrs. Clevie Endicott, read the report and was in charge of the program. Mrs. S. Endicott gave a reading, Mrs. Clevie Endicott gave the Bible reading.

Mrs. W. Pogue was elected president by Rev. O. Locke. This was due to Mrs. Walden the former president leaving the church.

The ladies gave a cheque for \$600.00 to the church. This donation was made up of the money taken in by the group during the year.

The next meeting will be held at the home of Mrs. Sam Endicott and Mrs. Jim Brock.

The next meeting will be held in the church.

## UCW fall bazaar

Penelon Falls (PNS) — The annual fall bazaar and tea held under the auspices of the U.C.W. of Penelon Falls United Church, which was held in the Ladies' Hall, was opened by the minister Rev. M. C. Fisher. Guests were welcomed by Mrs. Fisher, assisted by the president of the U.C.W. Mrs. E. Sharp.

The cozy heat of the hall was in marked contrast to the chilly fall weather, and a spirit of friendly warmth and fellowship permeated the whole atmosphere. Many of the lastest arrivals and fellowships arranged booths were highlighted by the Christmas theme.

The Country Store, with a typical assortment of farm and kitchen produce also featured Christmas wreaths and beautiful oil paintings, the work of talented unit members.

Unit 13 was responsible for this booth and among the specialties were Mrs. J. D. Thomson, Mrs. A. Bell, Mrs. H. Pomeroy and Miss E. Maybelle. The Home Baking booth, as always was one of the most popular features and among those selling the delectable cakes, pies, puddings were Mrs. A. Hetherington, Mrs. A. O'Meara, Mrs. A. Hetherington and Mrs. A. Hetherington.

As always the Tea Room was well patronized. The large lace covered tea table was centered with a bouquet of beautiful mums flanked by lighted tapers and the theme was continued at the small tea tables with smaller bouquets of autumn mums.

During the afternoon tea was poured first by the leaders of the units responsible for the arrangements, Mrs. Carl Hetherington, Mrs. J. Coburn and later these duties were taken over by Mrs. Fisher and Mrs. villages churches.

The Messengers had a table which featured church candles and other novelties.

Mrs. L. P. Swanston looked after this table and after the messengers assisted them.

## FIVE-YEAR CURE

Dear Dr. Steinhorn: I am 42, and my question is: Is my trouble mental or physical? Four years ago I was operated on for cancer of the uterus. During which time I was treated with 90 hrs. or radium and 28 X-ray therapies. I go for my regular checkups and my doctor tells me I am in good shape. The year in another year I will be declared completely cured.

Do you wonder why I am so nervous? I am miserable and frightened. When I try to describe how I feel I start crying. I have a family who depends upon me. I do all my own work, such as it is, because I am tired I can't finish anything I start. At one time I was anemic but now my blood is normal. So when I go all to pieces and let myself get out of control by crying and shaking, my family will say, "You had better get your blood checked."

Doctor Steinhorn, am I sick? I feel like the best medicine in the world for me would be to live get away from everybody, stay by myself and rest. I get up in the morning eating like a rat after a good night's sleep. I calendar basis in the management of my cancer. Like yourself, I am waiting for it to go Mr. X, my proper operation off. Wailing and wondering how by any indicated radium

If I will have a complete cure is more than I can bear. Mrs. X. Comment: Readers of this column will know how often I have praised the work of the American Cancer Society. Undoubtedly, through lay education alone, it has saved thousands of lives.

However, I am sorry for one thing: the emphasis put on the "five-year cure." I have known many patients like Mr. G. who have such day in legislation, closely watching the calendar, and waiting for the magic fifth year to pass without any complications from the original cancer, think any patient with any kind of imagination what ever lives in anxiety waiting for the formal notification of complete cure.

## NERVOUS EXHAUSTION?

I am not surprised. Mrs. X. that you are overly concerned and nervous and exhausted. My guess — as your doctor has found nothing else wrong — is that you are suffering from a nervous exhaustion. You are worried sick about yourself.

You can't wait until the five years are up to be sure. I think it is bad policy to make the patient aware of a later a good night's sleep. I calendar basis in the management of my cancer. Like yourself, I am waiting for it to go Mr. X, my proper operation off. Wailing and wondering how by any indicated radium

Little Britain (PNS)—The November meeting of the Little Britain Fellowship (British Church W. M. S. was held at the home of Mrs. Lorrie Norton.

or X-ray therapy, is of course indicated. But after you and the doctors have done everything possible, then I think you should live on a day-to-day philosophy, rather than on the long term five-year cure outlook.

Therefore, all I can say to you is, be thankful, Mrs. X. that you are physically healthy at this moment — and forget all the complete cure at the end of the five years. You may be completely cured right now — as why worry yourself into a needless, nervous depression.

Dear Dr. Steinhorn: I wonder if you can recommend the proper vitamin for my family ages 10 to 40 we could all take to prevent colds. There are so many on the market these days I don't know which to buy. Mrs. X.

Comment: I know of no vitamins which will prevent colds. (Revised by the Bell Syndicate Inc.)

The meeting opened with the president Mrs. Archer in charge. The minutes of the last meeting were read and adopted also the treasurer's report. Letters were read from the missionary in Africa. The ladies have been quilting and have several quilts ready to send to missions. It was also decided each lady will fill a jar of cookies for each child in the Jewish for Jesus Mission. The next meeting will be held in Kensington as guests of the Kensington W. M. S.

Mrs. Norton then took up the charge of the worship service. Hymn, "Since I Have Been Redeemed" was sung. Mrs. Norton opened in prayer.

A poem and piano solo was given by Marjorie McIntyre. The Scripture was read by Roy the Poind. A session of prayer was held with Gloria Teet and Mrs. McIntyre leading. Mrs. Norton then introduced the speaker for the evening Mrs. Joy Searle R.N. representing The Voice of the Andromeda. The Pioneer Missionary Radio Station, ICHS, Quito, Ecuador, South Africa. Joy spoke of her work also showed slides of the hospital she worked in which was of great interest to all.

Mrs. McIntyre closed in prayer. Lunch was served and a social time was spent together.

### CARL BROWN DECIDES . . .

Lindsay's Board of Park Commissioners got a last-minute surprise last night when his secretary, Gordon Mayne, ended a letter of resignation from Chairman Carl Brown. Needless to say, a motion reluctantly given to accept the resignation had a hard time finding its way through the board. However, since Mr. Brown was firm in his decision after 15 years of effective service with the board, it was finally accepted and was equally reluctant to accept. However, since Mr. Brown was firm in his decision after 15 years of effective service with the board, it was finally accepted and was equally reluctant to accept.

For several years it has been common knowledge that Brown has been approached at nomination time to be his name stand for council but each year he decided in favour of remaining with the park board. This year, after 15 productive years service with the park board, he felt he could accept the challenge with a clear conscience, believing the Parks Board to be well established and efficient, and offering others an opportunity to serve as council members.

From our experience with Mr. Brown over the past decade and a half, we have come to respect his judgment and ability. If anyone can make a contribution to the civic administration of Lindsay, he should be able to do it and we wish him every success in any further efforts to promote the city.

## Remember way back when

NOVEMBER 21, 1952

Bobbycay—At the regular meeting of the village council held in the council chamber last night, a petition was presented for the purpose of submitting a by-law to the council on the repeal of Local Option here but there were only 19 names who to vote on it, hence it was motioned, as it required 71 to vote, 75 per cent of the voters so that the council would be compelled to submit the by-law to the ratepayers. The names on the petition shows that they had been all over the village, but with all they still lacked 15 names of voters to make it any use. This speaks well for local option, which has been in force here for nearly three years now. If Lindsay and Preston Falls carried local option, it will work still better here as the most of the "wet dogs" comes here from these two places. The temperance people of Bobbycay are watching the campaign that are being waged on behalf of local option in these two adjacent towns with much interest.

NOVEMBER 21, 1957

A suggestion was presented in the address of Warden Wilbur Moncrief at the opening of the November sessions of the Victoria County Council that the Police and Assessment Committee take into consideration the advisability of changing the present plan of three sessions per year to the plan and other counties, of having a monthly meeting of the council. Asked for information on this, County Clerk P. L. Weldon stated that the plan was in operation in some counties of which he knew and that those who were operating in this way were not changing back to the old system. When asked if he thought it would save money to have a monthly session, he replied that he was not sure, but he couldn't definitely answer that. "It might have saved money and it might cost more," he said. "I don't see much sense in this present system," he said. He mentioned the sessions of the Victoria County Council, the sessions of Reeve Tiers, of Penelon Falls. "I think our system is quite satisfactory," Reeve Reads said. Reeve J. P. Connelley, who presided at the monthly session, said that with a two-day meeting in January. A motion that the sessions remain as they now are was carried.

Rush is On  
The Christmas rush is on in photographers' studios. Professional photographers report a growing trend in holiday portrait giving — placing photos under the tree so the gift receiver can select the pose he or she likes best. In fact, four of photographers' business — but children between the ages of one and four make up 40 per cent of the portraits.

New Sportswear  
There's something new in sportswear for spring — the suede skirt. This attempt to take women out of pants and

put them back into feminine attire features a full-length, skinny garment — topped by a shift blouse. Other spring sportswear trends include the divided skirt and shift dress.

In Minority  
You may be dreaming of a leopard coat or a bottle of exotic perfume for Christmas, but a Chicago gift wrapping firm says you're in the minority. A recent market study showed most women want a new dress from Santa. Next in a descending order, in new watch and a ring. Some practical females in the poll asked for a garbage disposal or a jukebox.

Temporary Substitute  
A special, thin sponge made of Polyvinyl can act as a temporary substitute for skin in closing severe burn wounds. Two surgeons speaking before the 31st annual meeting of the American Academy of Podiatric Medicine in Chicago described the process. The development will help surgeons quickly close wounds of severely burned patients until skin grafts can be made.

Cholesterol Level  
A medical research study in mild form of thyroid hormone a substance the body produces naturally — may be able to control the cholesterol level in humans without serious side effects. Dr. Frank Larson, an associate professor of medicine at the University of Wisconsin, says: "A less active form of thyroid hormone seems to do the trick," but he added that more research is necessary before a definite conclusion can be made.

New Product  
A gadget with 10 "arms" is a boon for dry-cleaning gloves, handkerchiefs and hosiery. The plastic dryer has been found suspended from each arm.

Household Hint  
A clean coffee pot is the surest way to a good cup of coffee. Scoop a coffee pot thoroughly with hot water and soap after every use and use a stiff bottle brush for the spout.

The choir and the Soloist Mr. Grant Baker made many fine contributions to the service. Refreshments were served by the ladies.

## Former mayor may go after hydro seat

With a council service of 15 years — four as mayor, two as deputy-rear and six as councillor, A. E. (Doc) Lick, has indicated he is considering making a new bid for municipal office.

He is interested, he states, in serving on the Lindsay Hydro Commission. He feels former experience in this capacity, while mayor, has fitted him for further service on this board.

The church was filled to capacity for this important occasion when the guest speaker for the evening, Rev. Wm. Arncliffe of Little Britain, gave an inspiring sermon entitled "The Importance of the Layman".

The highlight of the service was the dedication of a communion table, presented to the church by Mr. Bruce Cooper as a memorial to the pioneers of the community. The memorial was unveiled by Mr. Sam Moore and Mr. Leonard Powles.

# Jack - lighting for deer out of season - fined

Dismiss charge of possessing against  
new Peconic warehouse owner

Three Woodville youths, pleading guilty to a charge of "jack lighting" for deer out of season, were assessed a total of \$119.50 each when they appeared before Magistrate John Lloyd, and a charge of possession against J. Megens, operator of a warehouse was dismissed.

J. R. Keas, 17, A.W. Jones, 18, and J. Woodville, were charged with hunting deer, in a closed area on November 11, 1962.

UPP Constable Jan Miner, told the court that while patrolling around 11 p.m. November 4 in the vicinity of the

# Would start Santa Claus Stocking Fund off early

Lindsay's 1962 Santa Claus Stocking Fund is about to open operation again. Chairman H. Simpson, O.C., indicates a desire to get the fund off to an early start this year in the annual

"I have filed my formal statement in connection with the Santa Claus Stocking Fund with Mr. Bates, Clerk of the Town of Lindsay.

"I think it would be well to open the fund as early as possible this year as there will likely be a greater need for it this year than before.

"You have given the fund your loyal support and I would especially appreciate it if you will give it the same support again this year as we will require to raise more this year than we have for the past few years as we have had more calls on the Fund than in previous years.

"The publication of the list as you have carried it through the paper has greatly assisted in raising the amount of money we have been able to raise for the help for which the Fund was created."

the man I got a real Am-ah but as if you look close enough you can see it was taken beside one of the "Starline" cars.

"I also managed to get some of Zimmerman's get-togethers, including paper. I think would interest you. This is quite a spot and you can enjoy visiting it. The eating places are really something. Served family style (like some food servers) they just keep bringing food to the table and you are supposed to eat it. All the Dutch cooking - pork and sauerkraut, chicken and dumplings, etc. and then their main pie is "Blue-Ry-Bie". This is an open pie made with New Orleans Molluscs, lemons, sugar, corn butter, etc. I don't think Lynn would sell much of this.

"Our weather has been fine since we arrived, in Sarasota but this morning it is raining like blazes and any time the sun does not shine in Florida, it's just as smooth as any place else. The Smith Bros. over in Cuba have caused some alarm in Florida and many natives have really been stocking up on the necessities. The papers say it won't hurt the tourist season. (They must say that) but I have spoken to a couple of operators I know here and they told me later have some cancellations already."

# Lively election shaping up for Eldon Township council

A lively election is reported to be shaping up in Eldon Township where cottagers and permanent residents are entering candidacies in the field with unprecedented vigour.

One of the latest to declare himself open for nomination is Mr. and Mrs. Arthur Hill, who have a cottage at Bolovier, and who will not only accept nomination for councillor but plans to qualify in order to contest the December 3rd election.

Having been born and raised in Lindsay, Mr. Hill said, "I have the interests of the Township folk as well as the two-legged heart."

The other candidate, Nichols and Peconic appeared with another drag, which Nichols admitted shooting.

Officers Dykes and Swanson, of the Game and Fisheries Department, were told that the officers went to the home of J. Megens, whose home adjoined the warehouse, and producing a search warrant asked to search the building.

On questioning Megens told the officers he was the owner of the warehouse and proceeded with them for the search.

Another carcass of a deer was found with the skin turned in a corner.

Conservation Officer Dykes subpoenaed Officer Dykes in the testimony to the court, explaining, when questioned by Mr. Bates, Clerk of the Town of Lindsay, that the area was a closed area with no open season.

"One of the deer had been clubbed to death with the butt of a .303 rifle, he said, and the other two shot."

"What would you say was the condition of the building inside, and were there any other animals, or hides there?" the officer was asked.

"There seemed to be hides and dead animals all over the place," replied the officer. The court wondered how the boys had gained entrance with out the knowledge of Megens and admonished him severely for allowing it to happen.

"I did not know they were doing it," replied Megens. "I am fully aware of that said the magistrate, and feel very strongly about this type of business, which will allow anyone to come and go like these boys did."

"Was the place locked?" he asked Megens. "No," said Megens. "My licence does not say I have to lock it."

"Magistrate continued the magistrate testified, "But I do" and I am going to continue this further and see that any who have your licence taken away as there has been enough noise going on in this area."

"The Department of Agriculture inspect my premises every two weeks," said the accused.

The magistrate felt there was not sufficient evidence against the accused for a conviction and dismissed the charge of possessing.

Discussion re the post office was sparked by a verbal report by County Clerk P. L. Weldon regarding the proposed re-delineation of the Court House grounds of overworked condition.

Reeve Campbell stated that a number of the offices now in the Court House could be moved to the post office.

Clerk Weldon pointed out that the value of architect Wm. Ridpath regarding re-vamping the Court House cost the county \$7250 but that of funds in the Court House held the opinion that the architect had secured sufficient reason for his findings from the officials of departments directly concerned.

Clerk Weldon reported that G. K. Garby submitted a plan to the property committees which called for almost three times the size of the present office. Police Magistrate H. I. Moore suggested office accommodation the present premises.

The Sheriff's department will require very much larger quarters and County Assessor Hall is known to require three times the size of his present office. His Engineer H. D. Wilford have not yet submitted proposals to the committee.

Sitting in the Cottage Restaurant last week I attended a recent, the editor dinner meeting of the Victoria County Historical Society, old times. A young Lindsay I was a satisfying and educational meeting. I was there through the courtesy of Cal. R. L. Moore, general and came up with several unusual and interesting ideas on how to make things better. His ideas were radical but a little hard to adapt to present day readers. After he left, the editor turned to me and said:

"Why don't you . . . ?"

"Why don't I what," I asked.

"Start writing again."

"That's not a bad idea," I replied. "I'll do it."

So, you can see how hard it was to convince me that I should be back in business at the old stand. Hence this column.

I'm hoping that the readers will write me and let me know what they would like to hear about and we'll take it on from there.

Hunting is always good throughout the Haliburton Highlands and the group under the care of Pat Waddell is the top of the story for this year. Reading Michael Bellet's column verifies the story we had heard. A Toronto Hunter, Jim Gillespie, fired four shots and ended up with three dead deer.

Ray Windover's party started the hunt off with 14 deer the first day.

Met D.R. (Dale) Spence on the Main street the other day. He is a remarkable man. In his 98th year he is keen, alert and still has that wonderful personality and sense of humour that have made him well known throughout the counties of Victoria and Haliburton.

Speaking of personalities, T.H. Stinson was at the Historical Society meeting the other night. President Dan McQuarrie paid him a well-deserved compliment.

"The town of Lindsay has been made better because Tom Stinson lived here," said the orator Mr. Stinson received following Dan's remarks was tremendous.

The Commencement Exercises were held in Haliburton recently. A few small words were said during the evening that may have passed unnoticed but their implication is great.

Mrs. Peggy Neville made them as she presented the Dyras Home and School Trophy. —Spring to lack of interest on the part of parents, this association has decided to disband and this will be the last time this trophy will be presented."

Read that small statement over to yourself and see the picture behind it. The poor marks the students have been getting in the absence for hunting season, the complaints the parents have had regarding the showing their children have been making.

No further comment is needed as to where the weak ones are. The organization threw in the sponge because of lack of interest of the parents . . .

Mrs. Irene Elizabeth Crozier, wife of Alan Crozier, of Sea-rove, passed away at Port Perry Memorial Hospital on November 15, 1943, after three months of hospitalization.

Mrs. Crozier was the daughter of Mr. and Mrs. Norman Noble and was born in Ontario in 1915. Later the family lived in Huntsville and Cochrane, where Irene received her education. After the death of her father, by accident in 1930, the family moved to Sunderland.

On February 23, 1935, she married Alan Crozier, in the presence of Rev. B.P. Green at Welcome. Their first home was on the Reach and Brock Terraces. On October 15, 1944, their house burned down and after a few months in Seagrave with Mr. and Mrs. W. Crozier, they moved to their present home on the 14th of Reach. Mrs. Crozier was a member of Seagrave Wesleyan Church and the U.C.W. She was a very devoted wife and mother, her chief interests being her home and family.

She leaves to mourn her passing, her husband, Alan, and six children, Donald, son of adjacent farm, Shirley Ann, R.N., Jessie (Mrs. Ken Buttery), of Bonaventure, Ronald and Mary Jane at home, also an infant daughter, Irene-Kate, four grandchildren—William and Debbie Crozier, Wayne and Derek Buttery; her mother, Mrs. Beatrice Dodge of Uxbridge, two brothers, Orson of Halifax, and Wilfred, of

testing minutes? Listen to a motorist's complaint covering the new cars.

Driving along the road, the heater stops working. A dash blows. Replace the fuse, and everything is in order. But, A-H-O-W to replace the fuse. A hurried look through the owner's manual found it.

No so and so was located under the dash in close proximity to the light switch. (This is the understatement of the year—the "P" is in practically in the light switch.)

Giving up, do without the heater until you get to a garage. We watched the mechanic fix it. He went in over the seat backwards and upside down, pulled it from the light switch, uncircled it from the dash and installed the fuse. (The man who designed this arrangement must have been the one who designed the Edsel. He must hate people.)

Conclusion, this fuse may be easily changed by a short sighted midget. But under no circumstances by anyone in arthritis or in the advanced stages of pregnancy.

So much for this week.

"Nowadays when a woman says she's busy in the kitchen, it may mean merely that the telephone's in there."

GET THE SNOOE HABIT

Dear Dr. Steiner: Since I took your letter "Get The Snooze Habit" I feel like a new man. I never realized how much energy I still have in these old bones. Thought you'd like to know. J.

Comment: Snoozing is not only good for old bones, but nature seems to think it's good medicine for the young bones or infants, too. I know so many people who drift themselves around at a snail's pace, and I know 50 per cent efficiency day after day simply because they need periods of rest and relaxation to neutralize the pressure that build up during the work day whether it is in an office, store, shop or in the kitchen.

The body welcomes rest—just as the heart does between beats. And the best way to get it is by developing the ability to take naps. After lunch or before dinner, or just before going out for the evening. It is an amazing restorative.

Granted, it takes practice. Don't become discouraged if you can't catch right off. But I think you will agree with

By Peter J. Steiner, M.D., F.A.C.P.

Me. P. that you will feel like its free pamphlet, "Bee Slings Can Be Dangerous."

CAN MUMBO-JUMBO CURE WARTS?

Dear Dr. Steiner: Will you explain how it is possible to make a wart disappear by using abscadules like passing the hands over it and musing silly words? A friend tried it on me and it worked within weeks—Mrs. O.

Comment: In many cases warts are caused by viruses. In others, we don't know. Although mumbo-jumbo work as often as people think it will, pediatricians have told me that it has worked in numerous children. There's no explanation except that perhaps the warts were at work at that time away.

For Mr. W. The fact that you have recently had your second severe attack of coronary thrombosis doesn't mean that you should sit around waiting for the third "fatal" attack. In the first place, the attack itself isn't inevitably fatal. In the second, I've known patients who have lived over 15 years after the second attack and never had a third.

By Peter J. Steinhorn, M.D., F.A.C.P.

WHAT TO DO ABOUT VARICOSE VEINS

Dear Dr. Steinhorn: I write about varicose veins. E.

Comment: I can understand your curiosity, but your type of question is difficult to answer because it does not refer to some specific problem. It would require a book-length dissertation to include every cause you may have in mind.

So let me guess at what is troubling you or yours.

Are you wondering what causes varicose veins? I can assure you we do not know.

There comes a weakness in the walls of the veins and an inability of the large valves to force the large veins to function well. As a result, there is a stagnation of blood and interference with normal return of the blood from the leg veins to the heart.

For example, sitting too long of standing too long in one place.

Are you wondering about at treatment? Simple measures:

1. Exercise 15 minutes daily by walking. When you sleep for 10 minutes. We get 10 minutes of sleep a day.

2. Put your legs a half hour for lunch during by putting your legs in the air.

3. Minimize and sleep soundly for 10 minutes.

helps the blood flow back to the heart.

You might try using bandages or elastic stockings. Your doctor will advise which is better for you. If operative interference is necessary because of simple injections into the veins, ligating (tying) the veins, or removing them by an operation sometimes called "stripping."

Are there any complications from varicose veins? Yes, and they are common if the patient is careless. For example, if he is always bumping into furniture, there is a likelihood he will come down on the leg—which can be quite stubborn. So be careful.

SLEEP PROBLEM

Dear Dr. Steinhorn: Sleep! How come some people in the 45 age bracket can get along on four hours sleep while others like I need 16 to 18 hours of sleep a day?

I got up at 5 a.m. to be at work at 7 a.m. We get 10 minutes of sleep a day.

When you sleep for 10 minutes. We get 10 minutes of sleep a day.

Put your legs a half hour for lunch during by putting your legs in the air.

Minimize and sleep soundly for 10 minutes.

## Halliburton

A few friends met at the home of Mr. and Mrs. Allen Owen before they left for Oakville to enjoy a game of cards, a nice lunch was served.

Mrs. Marjory Hansen opened her home for a demonstration and a nice crowd was present. Mrs. Murray Anderson was in charge of proceedings and explained the many uses for the product.

Mrs. Hansen received a pretty vase for opening up her home for the occasion. A lovely lunch was served and the evening was enjoyable and profitable.

Comment: I'd have to know more about you. How old are you? how long you have had this sleepless, something about your past medical history and so forth.

Meanwhile, while you are in the hospital is the time to investigate. Have you had an electroencephalogram (brain wave tracing)? Do you suffer from narcolepsy? Have a basal metabolism test? And keep away from car for fear I may fall asleep at the wheel which I have already done more than a few times. Have you got a solution?

I know it is not that simple. I was in the hospital for the past few months with two broken legs and I need just as much sleep as I did when I was working. Even now I sleep 10 hours a day.

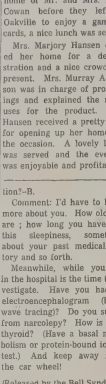

My family doctor can't help anything wrong. I will say to myself, that my tiredness is not in my body—it is only in my mind. I have to drive a car for fear I may fall asleep at the wheel which I have already done more than a few times. Have you got a solution?

## STOP!... killing yourself

By Peter J. Steiner, M.D., F.A.C.P.

## WATCH OUT FOR GLAUCOMA!

Dear Dr. Steiner: Lately my vision hasn't been as good as it used to be. I am 55 and otherwise in good health. I have been noticing what I call "colored rings" around lights, but I don't have headaches or other symptoms. I suppose you know what I am thinking of. I hope it isn't glaucoma. What would you do, Mr. G. Comment: Now you know what I'd suggest, but I've been hoping against hope that I will forget about it. Of course I won't. I'll say right now, you better see an eye doctor as soon as you can. For if it is glaucoma, you have been losing valuable time. The longer you wait, the greater the chance for blindness. (Glaucoma ranks second as the cause of blindness.)

Somewhat many people think that because they don't have headaches, there's no danger of having glaucoma. This is not so. In fact, the most dangerous and insidious cases are those in which there is nothing going on. I hope you are not symptomatic at all. Most glaucoma cases are not in the anamnia. If so, you'll be one for eye checkups for years or for the rest of your life.

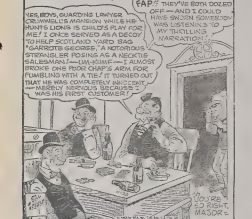

hurdling surprised when they are told they have it. As glaucoma is commonest after 40, all people in that age group should have tonometer readings (evaluations of pressure within the eyes) at least every two years. The procedure is painless and takes only a few minutes.

We don't know the actual cause of glaucoma, why some people get increased pressure within the eyes which destroys vision, and others don't, but we do know that immediate treatment is vital. The doctor prescribes eye drops which are to be used daily. And the patient must be faithful with this medication for months and years, otherwise the vision will be steady and may lead to total blindness.

Loss of sight due to accident or other reasons is something unavoidable. However, when you allow a treacherous enemy like glaucoma to gain a foothold, often the cause is pre-erastination. Face up to it, get good. You've been putting it off long enough. I hope you are not symptomatic at all. Most glaucoma cases are not in the anamnia. If so, you'll be one for eye checkups for years or for the rest of your life.

## Finds out how to grow cells and stop growth

A young scientist may have taken a major step toward finding out what makes cancer cells grow -- and how to prevent them from growing. Paul Kenney, a 25-year-old student working toward a doctorate in microbiology at the University of Manitoba, has succeeded in growing cancer cells. The significance of his research is that he used chemicals whose composition is understood by scientists -- beef tate and nucleic acid from yeast. Previously, scientists had been able to grow cancer cells in calf serum -- and they hadn't been able to determine which elements helped the cells grow.

Comment: I wish I could, but we don't know it. For a while we used to think the foods you mentioned might be the cause, but we have no scientific proof that this is so. Neither can we say that "acid foods are a cause" so many people believe. Virus infection or bacterial infection may be involved, but we can't prove that either.

Because crops of "apathic" or cancer cells often appear before or during menstruation or date from the beginning of the menopause in some patients, we think there may be a link between these apathic uteris and the hormones. (Released by the Bell Syndicate Inc.)

ed. Scores of remedies have been suggested in treatment. Here is a suggestion: if the usual ones like alum, iodine, don't work, perhaps your doctor will prescribe a corticosteroid ointment. Often this is effective.

## NOTICED along the way

The following definitions for the word "criticism" are of the cringing, unfavourable, censorious, judgmental or reprobatory nature, or more or less trained in the view, this corner. It is not my intention to criticize unfairly an individual or organization, but rather review from time to time some of the issues that have to be faced as a small town.

Lindsay, as a town, is one of the best in the Province of Ontario. While it is a considerable distance from what we call "the Front", nevertheless it has many things to offer that towns along the front are not so well blessed with. Lying adjacent to many lakes, it attracts the holiday trade from all over the province. It is main street, 96 feet in width and lined with well kept pieces of business, must be a real pleasure for visitors to drive through. There are many fine stores which would be a prospect to come to. Several old timers can look back to the days when Lindsay had a foot of hard surface roads. Kent Street, in the spring of the year, was a muddy bog from end to end. Then there appeared in the scene a man by the name of "Doc" Rorick Kyle, and from then on Lindsay has developed a system of roads and streets, unvarnished and of about similar size.

When people make business picture shows Mayor Joseph Holtem (centre) looking on as Walter Humphries and Mr. Graham show samples of what one of their finished eye beaters will look like. Bottom picture shows the group as they make up the Lindsay different products are explained. The company started out in the wire products business (hooks and eyes) over a century ago. Mr. Graham recalled, in the top picture, Branch Manager Gordon Graham of Lindsay (left) and Lindsay Industrial Company an important role as a basic material. Mr. Graham was the first shipment of heavy industrial commission for the town up until relinquishing the job to take over for Seymour and Turner. Link-ups chain and allied products as it comes down the duction is expected to begin hoist from the shipping and on some lines within the next receiving platform. The entire few weeks.

## TYPEWRITER DUST

Only two have survived In the not so distant past there were three or four typewriter and carriage shops in Lindsay, by the late Mrs. Greenleaf. A number of blacksmith shops, several harnessmakers and shoe repairers were also in the town. Now only two repair shops now survive following the closing of the one in the south end of the Lindsay street bridge.

It is reported that Russell Taylor of the Keweenaw construction Co., has purchased the frame building which for many years has been a "hole in the sock shoe." The recent proprietor conducted a shoe and repair business.

John Cole of the Cole Shoe Store reports that reason for the closing of his business was due to the fact that many of the position sales are being used by the shoe stores.

With the disappearance of the shoe stores, the Lindsay street bridge, it is recalled that many years ago an expert in repairing and a manu-

## The Northeast Corner

by "The Town Observer"

Webster's Dictionary defines "professional men and women" as "those who, by law, letters, doctors, accountants, clergymen, businessmen, lawyers and others who are more or less trained in the art of government, are as a rule compensated by their absence."

This is a tragic situation and should be given serious thought. I can recall the day, not too many years ago, when taxes were about 10 per cent. Now they are today. During the years when Charles Lamb was mayor, Lindsay had a population of 40,000. This year it is 71,000 - almost double. Assessment has also increased. Taxation picture is really the barometer on which hangs our industrial development. A man seeking a new location for his industry, employment himself first in studying the tax structure of the town. Any town with a high tax rate does not present an impressive picture to a potential industrialist. He will say your bread and drink your wine but eventually he will locate elsewhere. Do these facts mean anything to Lindsay? Outside of one substantial industry the town has been left with a few small businesses which might be called the "Industrial Revolution," led by the Industrial Commission.

The Industrial Commission of the 1983 Council might profitably interview Mr. Lamb and perhaps persuade him to change his professional employment for a more lucrative home town service. We know of no one who possesses a more fascinating and commanding personality and who would actually rally industry into Lindsay.

It is interesting to speculate on how all this planning and action will be carried out. Respects should indeed be paid to the great and far reaching work of the past week. The Lindsay Industrial Commission has done a great deal. It would take a long column to list the projects of a single day's work? Consult your employment office and ascertain the number of men and women who are unemployed. The rumours are that bread and butter are about to run another hike. A man must be genuinely excited by anything to live in Lindsay any longer. So if Lindsay has no work to offer, he must be the absence of the business go elsewhere.

## Says Council Is responsible

Lindsay, Nov. 17, 1942. The People Write, The Lindsay Post. Dear Sir: I am inclined as a ratepayer to take exception to a suggestion going the rounds.

Amalgamation will officially take place on January 1st. An Order-in-Council has been issued from the provincial government to finalize the amalgamation. Both companies were started in 1885. The same directors were in the final end of the Maple Leaf Group becoming honorary directors. Mr. McPadden states.

President James Butler extended a welcome to members of the Lindsay Industrial Commission at the Columbia meeting Friday, stating the expanded company will be a single unit, giving the best possible service and free protection to customer old and new.

## Miss. M. Forman addresses WCTU

The main paper given by Miss M. Forman at the Women's Christian Temperance Union meeting on Cambridge St. United Church parish was entitled "A look back at the Drug Addiction Research Foundation" in Toronto with branches in all parts of Ontario and Port William.

This was indeed very interesting and thought-provoking as the full aspect of the Foundation which has carried in the industrial regulations has unfolded. It was pointed out that "An alcoholic is a person who has become physically dependent on the presence of alcohol in his system or has developed a psychological need for its anesthetic effect or both." In Ontario there are 35,000 cases of alcoholism, alcoholism disorders or disabilities limit as many people as either cancer or tuberculosis. It recognizes that with the knowledge now available and with the modern alcoholics can be helped by the proper discipline. The services of the Foundation clinics are available to any individual.

Dr. J. M. Holmes read his report on the development of the services and inpatient services, the latter only established at the Toronto General Hospital. Miss Forman also read a letter written by a patient who had been told by his boss and his doctor that he was going to the clinic to be wanted to keep his job. In his concluding address he wrote:

## Calling in Ontario Dept. of Health to investigate ditch pollution

Lindsay's Board of Health, Mr. Holmes: "What's the plan?" "Se-S" the Mayor down, "I don't know, but I would like to see this dumping of raw sewage" he added.

Mr. Holmes: "You can't put it in a septic tank." Mr. O'Neill: "No, but you can put it in a septic tank." Mr. Holmes: "That's just a storm sewer." Mr. O'Neill: "They are using the town, the old as is."

"What does the book say is the next step," asked Laverne Gable addressing Chairman Stephens who was pouring over a full edition of the Public Health Act.

Mr. O'Neill: "Hans't the MOH got power to go down there?" Mr. Stephens: still reading, "I can prosecute them for dumping into a public ditch, but it is in the hands of a judge."

Mr. Crowe: "Having them down there and pay a \$5.00 fine won't remedy the situation." Mr. Stevens addressed the water could not be shut off, or prosecuted would follow.

"Why wall tie sewers are in, there must be some relation to the pipe thing you can do about it." Mr. O'Neill addressing MOH: "I can refuse to give a building permit, but this property in private ownership and in existence. I don't see what to do."

Mr. O'Neill: "I still think they can't dump into an open ditch." "I would like the town solicitor." Mr. Gable: "How would it be?" Mr. O'Neill: "I wrote to the Board of Health and see what they say."

# Report four hunters hurt when bullet hits rock

## Freak shot hospitalizes Gelert man

Four hunters are reported to have been injured last Wednesday in a freak accident. They are said to have been struck by rock splinters when a bullet hit with shattering force. The accident occurred on the Gelert farm of Edward Peacock and most seriously injured was the owner's grandson, Joseph Peacock, 24. He was rushed to the Ross Memorial Hospital, Lindsay, by Minden ambulance. ## NOTICED along the way

There didn't seem to be quite enough people in Lindsay Wednesday to go around at the meetings which were being held at about the same time. . .

The Lindsay Area Planning Board didn't even get off the ground when insufficient members put in appearance to form a quorum.

A meeting called to discuss the upcoming "Do It Now" campaign in Lindsay found a little better, but not enough showed up to really get things to brass tracks. . .

"We should have started it in October," she said, "but are having difficulty locating a nurse who would take over the day program."

"Of course, it is strictly voluntary, and there is no pay involved," she added, "which might be one of the deterrents but we feel there must be someone who would like to help us out."

When, and if the course gets underway, it will run for 15 weeks, and will include all phases of practical nursing. Thirty-six applicants are signed up for the course, 17 from Lindsay and 15 from Kilmory.

The English philosopher, Herbert Spencer, said: "Education is the best object has formulation of character."

## Lindsay had historical society about 60 years ago, history shows

Barriette A. David, McFall of Bolton and Toronto, of the County Historical Society last Wednesday, and who holds the office of Past President of the Ontario Historical Society, made reference to a piece of history which was being Lindsay and Peterborough.

A history of historical societies in Ontario showed that Lindsay had a society in the year 1904.

The Ontario Society history revealed that Lindsay and Peterborough were hosts to the annual meeting almost 60 years ago when it was addressed by Judge Dean and when members of the local society held an excursion on the steamer Omega, a Lindsay steamer.

The society members then transferred to the steamer Euforion, also a Lindsay vessel and the journey from Peterborough to Lindsay completed. A meeting was held in the Academy of Music in Lindsay at which the speaker was the late W. H. Stevens, a teacher in the Collegiate Institute. The Mayor of Lindsay also spoke.

Mrs. Ann Jacobs, of Little Britain, accompanied by Mrs. Western, of Drim, Mrs. Clifford Mark of Missin, called on Mrs. C. Jordan and her mother Mrs. Paul Mark.

Mrs. and Mrs. Noel Webster of Oakwood, visited her sister Mrs. Boyd Sharpe and Mr. Sharpe, on and attended church service.

Mrs. Powell, of Orillia, is spending a few days at the home of her daughter Mrs. Ivan Lamb, who is in the Ross Memorial Hospital, Lindsay.

Mrs. Emma Coulson and sister Mrs. Bennett are spending a few weeks with friends at Toronto.

Mrs. MacGlasgow is residing at the school in Lindsay, owing to the illness of one of the teachers.

Mrs. and Mrs. Jack Coulton visited in Lakeside owing to the illness of her mother, Mrs. Maude Dunford, who was moved to the hospital for a few days.

The ladies of the U.C.W. are busy buying a fancy quilt for the bazaar, which will be held the middle of November at the United Church.

"We had a good season last year" he said, "and hope to have the same this year."

## Woodville

Mrs. Lloyd Pethick visited in Orillia at the home of her brother Mr. and Mrs. Sid and daughter.

Mrs. D. Davies, Elizabeth and Edward resided at the home of her sister, Mr. and Mrs. Elmo Archer, Janetteville.

A delicious lunch was served by Mrs. Margaret Hancock and a very pleasant social time was enjoyed by everyone.

The Art Rowan's visited son attended the Royal Winter Fair. Mr. and Mrs. James Schekleton, accompanied Mr. and Mrs. Howard Malcolm and family to Hamilton to visit Mrs. Betty Whitaker.

## CWL plans Christmas party

The November meeting of St. Mary's Parish Council was held with Mrs. P. L. Kavanagh presiding.

Minutes and reports were read. Plans were made for the annual Christmas party, at the Victoria County Home for the aged, to be held early in December. Also gifts for sick and shut-in members.

A letter of appreciation was read from the Diocesan President, Mrs. T. P. McRoy of Hurville, who attended the regional meeting here in October.

Mrs. Harry O'Reilly, spiritual converter, urged all members to attend the Communion Breakfast.

The meeting closed with prayer, and lunch was served by Mrs. Cyril Gerster and Mrs. Clara Shee.

## Yacoub says tax cut due to external factors

NOTICED along the way

Doesn't feel council should assume credit

"I don't know how Ops council takes all the credit for reducing the taxes," Council assistant Maurice Yacoub declared in a question- and answer period at the close of the Township nomination speeches Saturday. I gather the reduction of taxes happened due to external in- fluences," he stated when Clark Elwood Smith had ex- plained factors contributing to the decrease. Mr. Yacoub had asked what had occurred in Ops council business this year that all council members were taking so much praise in the reduction of township taxes. ## Workshop for executive held at Queen St. United

A very successful workshop was held recently at Queen St. United Church for the executive of the Lindsay Presbyterian United Church Women.

The workshop was conducted by Miss Marion Thompson, who was introduced by Mrs. Carl Stephenson, as Field Secretary on the Board of Women, Toronto, a native of Manitoba and a former school teacher. She was also a graduate of Covenant College. Miss Thompson's main emphasis was on programming and considering questions along these lines.

Her agenda presented by the use of a flip-chart consisted of: 1. Getting acquainted with the different organizations represented. 2. Brain storming (Questions and answers). 3. Presentation of her interpretation of U.C.W. programme. 4. Work groups, 10 in a group. 5. Sharing what we learned here.

After a box lunch, the field was shown on how to conduct a question. This naturally led to another question and an answer period which was continued in the afternoon and during the supper hour when Queen St. entertained the executive to a delicious hot meal. Miss Beatrice Wilson, Associate Secretary of the Board of Women, presented by the time and answered such questions as: Are all officers vacant on December 31st? Who sets up the budget for 1963? Miss Wilson also addressed an evening open meeting held at Queen Street U.C.W. to which all were invited, when she spoke on "General Council its purpose and how it functions."

## Money as measure of success fallacy of this generation, real estate men told

Money as a measure of success is the fallacy of this generation... That is the opinion of a leading Ontario real estate salesman.

Over 30 real estate salesmen and brokers from Lindsay and district, heard President of the Real Estate Boards Bruce Fleming, address the Lindsay Real Estate Board banquet last night on, "How To Measure Success."

Members from Peterborough, Oshawa, and as far as Smith Sea. Marie gathered before the main address to partake of well prepared supper.

"There are different standards of measuring success," said Mr. Fleming, "but I think the most usual is money, and this I believe to be a fallacy of our generation."

"If a man has accumulated a lot of money," he continued, "he is a successful person. But I do not support, as I know many very successful people who wouldn't care about money."

"Over the years, I have learned that the only real ingredients for success, first enough money to live decently with, and to retire on, secondly, some contribution to the betterment of my community, and my fellow man, and thirdly, a place of respect in my business, with my friends, and in my community."

Mr. Fleming spoke of success as knowledge, work, and needs. "You must have a thorough knowledge of the trends," he said, "with a trained eye for the market."

Planned intelligent work also must be added, and as to success, it must be worked for, and this applies to an individual the same as an organization.

"You, as salesman and brokers, must take all the ad-

12 of the County rates are less than \$ mils. All have contributed to the City Township rate being a fraction of a mill lower than last year. Expenses had not varied much. There were a few more dollars surplus this year than last up to date but a bad December could down the surplus.

Mr. Yacoub said he understood then the reduction in City taxes should not be the credit of the 1962 council but to external influences.

Mr. Yacoub also questioned the expenditure of money gravelling a side road to the property. "I noticed a lot of gravel was dumped on it and it was scraped back forth."

"I don't see any difference in it now than in the spring," he stated.

Councillor Barney Rogers, "I dearest if the gravel had not been put on and scraped back forth, the road would have been a lot worse."

Said Mr. Yacoub: "Any expenditure I see done with cost relationship to improvement. You can fix a thing up for a lot of cost and a little. The cost has got to be kept in relation to the improvement. I say the relationship there is not correct."

## Velveton

A speedy recovery to Mr. Geo. Heslop of Newton (formerly of Velveton) now in Lindsay Hospital.

Many Velvetonians attended the Durham Federation of Agriculture annual meeting and banquet held in Port Hope Masonic Temple. A fine meal followed by an interesting but humorous and informative guest speaker, Mr. Art Musgrave newly-elected President of O.F.A.

Congratulations are extended to Bruce Taylor of Selma. Bruce was recently elected Zone Governor for this district (7 counties) to O.F.A.

The explorers entertained their mothers and friends to a pleasant evening to conclude their season's activities. Awards were presented to the girls who had completed certain projects.

Mr. and Mrs. Bert Gibson attended the funeral of their uncle, Rev. J. Robson recently of Selma formerly of Lindsay. Rev. Robson was the presiding minister at their wedding. Sympathy is extended to the Gibsons on their bereavement.

Mr. and Mrs. Walter Wright were Sunday visitors with Audrey's parents the W. H. Austers.

## Ops nomination meeting in progress

There wasn't a large crowd at Ops nomination meeting on Saturday afternoon but those who were there, appeared interested in the proceedings. Among those in this picture of the audience was Hyron Rogers, candidate for reeve. He was seen in the right foreground with one arm resting on the back of a chair.

big house. The six extra bedrooms will come in handy.

(6) Turn over the reins-cut altogether-let your family run what's left of your life.

So there-you do those six things and you'll sure lose up a good retirement.

A friend of mine who used to work at the Bureau in Toronto where they issued Driver's licenses, was suddenly transferred after 20 years.

When I was talking to him, he looked unhappy.

"What seems to be the trouble, Fred?" I asked.

"This job. Nothing but trouble, trouble."

"How come?"

"Well," he sighed, "they transferred me to the Marriage License desk, the young couple keep getting mad at me. But, I can't help it after 20 years issuing driver's licenses I can't get over the habit of asking-is the license for business or pleasure."

So you see-we all have problems.

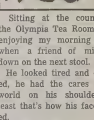

The size of your foot has very little to do with your ability to get in into your world.

That's all for now-Fredrick.

## Fenwick Finch!

Sitting at the counter in the Olympia Tea Room I was enjoying my morning coffee when a friend of mine sat down on the next stool.

He looked tired and dejected, he had the cares of the world on his shoulders, at least that's how his face looked.

"What seems to be the troubles?" I asked, "you look as if things were ending for everyone."

"I've been all over town," he sighed, "and I can't find Fred or Barney. I've been in every store but no luck."

"Who're Fred and Barney?" I queried, "anyone I know?"

"My brother's kids," he beamed.

"Don't tell me they're lost!" I broke in before he could finish. "Have you gone to the police they'll help you."

"What's the use going to the police if I can't find Fred or Barney they sure can't."

"Of course they can't!" I interrupted, "that's what they are trained for—"

"Aw, knock it off," he said turning to me, "Where you trying to kid me, you know I'm looking for..."

"Not me friend—what about your brother's kids—"

"When my nephews heard I was coming to Lindsay today they asked me to pick up two Tinykins they needed to fill out their set. I'll be charged if I know what to tell them—I've been all over town and I can't find Fred Flintstone and Barney Rubble."

An extremely dedicated and interesting man is Tom Eaton of Penfold Falls. A young 22 years of age Mr. Eaton is looking towards his retirement as an opportunity to further carry out one of his many avocations. He is a man of many accomplishments, a fully qualified instructor in First Aid, a well-known speaker and an expert-seller, during the 2nd war was a qualified Chemical Warfare expert in England and as such trained thousands of people of all classes and creeds. At present employed by the Ontario Hydro Security Division, Mr. Eaton is stationed in Penfold Falls.

Late in 1951, Mr. Eaton became interested in the work of Lay Reader under the influence of the Rev. E. L. H. Taylor, after several months of intensive study Mr. Eaton was confirmed by the Right Rev. Hunt, Suffragan Bishop of Toronto.

"It is my hope," said Mr. Eaton, "that I will be sufficiently skilled to be appointed a Diocesan Lay Reader in the

not too distant future."

Mr. and Mrs. Eaton, married for 42 years are proud of their son, the Rev. E. L. Eaton, a former R.A.F. Acting Squadron leader answered his call and resigned his air-force commission to enter the church.

Rob Booth of the Midget Boat Works has announced the latest expansion in his already progressive business life.

Mr. Booth has now taken the complete Ford and Mercury Agencies for Haliburton Co. if Ford makes it-He sells it.

Alding Mr. Booth will be his son Don Booth and married as Sales Manager at Bell Normie.

A new garage is being built, a full line of parts will be carried and Ford trained mechanics will be on hand to service the vehicles.

"What do you think of retirement," Ralph asked me the other night.

"What do you mean, retire?" I retorted "I've just barely got started. I realize this column is no Pierre Berton effort but I'm not ready to quit yet."

"I did see a good article on retirement the other day," I said, "Written by Bob Morrow in the Hydro Staff News it gave quite an insight into retirement."

"The main thing," I continued, "Seems to be not what you do but what you shouldn't do."

Management Review says, "The six quickest ways to ruin your retirement are—"

(1) Pack up and move from where you have spent all your life.

(2) Load—don't do any work.

(3) Get out and buy every fat and gimmick a 65 year old shouldnt't do.

(4) Live it up—buy a new car, get a swimming pool or anything else you can't afford.

You have a reduced income, don't let that bother you.

(5) Be prepared—keep that

### Praise Western Link

According to a Lindsay four-some which entered keen competition at a bonspiel last Friday and Saturday the Club at Weston has spent several thousand dollars on bringing it's rink up to date. Dr. C. V. Laidley states that the rink has many fine appointments, but the job accomplished to obtain good ice has been outstanding. "It was clean, colorful, and very fast - it was a pleasure to curl on such fine ice."

Apparently the Western rink has practically a "floating" ice cushion. The ice has been raised off the ground so as to eliminate the chance of frost heaving the sheets. Furthermore the posts holding up the rink have been electrified to the extent that there is no danger of frost heaving the ground and causing ice to shift.

The idea is one of the latest adopted in the erection of new curling rinks as a method of securing straight ice.

The big danger encountered by the Lindsay Club every season is the one concerning the heaving of ice because the entire rink is located on a clay foundation of ice because the removed drains installed, railroad cinders used with and expansion posts have been installed, railroad cinders used with the front.

Incidentally, the combination of Dr. and Mrs. Laidley and Bill and Helen Gregory was successful in winning third place among all rinks.

The new District Bonspiel fell all curling clubs in and around Lindsay gets underway on December 1st and runs through the fourth. It will include representative rinks

from Penelon Falls, Dunford, Ormrod, Bobcaygeon, Woodville, Cammington, Oakwood and Little Britain as well as Lindsay.

### Farmers Event

One of the most important and successful spiels of the early season will be on Dec. 19th. This event is sponsored by the Victoria County Hotel Association and some of the best rinks in a wide area will be represented. The event is for farmers or those engaged in the farming industry.

### Boxing Day Spiel

For several years past one of the most successful bonspiels held by the local club has been the event known as Boxing Day bonspiel. This competition, which takes place on Boxing Day will attract 34 rinks interested in winning the Claxton Store Cup and six sets of skates.

Members of the Ladies Curling Club will get the bonspiel season off to a good start on Nov. 29th, according to dates in the schedule book. It is labelled as a district event to include Bobcaygeon, Penelon Falls, Woodville, Oakwood, Sun-

# EDITORIALS....

## THE TOWN'S FINANCIAL STATEMENT

There are three items in the 1982 budget of the township of Lindsey, as of October 31st, which make it interesting reading and give rise to some speculation, especially in view of the Roman Catholic Church's request to have Ontario separate schools maintained on the same basis as public schools.

The three items are:

- EDUCATION**  
Public school board - \$377,740.37  
Separate School Board - \$1,764,136

High School Board - \$1,919,434.36  
The figures raise two questions: "What makes us want to ask questions (that we probably will)?" They compel us to wonder if our public and high schools were not over-funded in maybe they were over-funded to wonder a little bit too, perhaps even ask a few pertinent questions during this pre-election period in Lindsey.

## SEVERAL GAUNTLETS WERE THROWN

Several gauntlets were thrown down at last night's nomination meeting as 383 candidates took issue with the performance of the 1982 Lindsey City Council. They will have to be either picked up or thrown down and cleared away between now and election day, or let lay there as one would leave a case of dynamite unless familiar with how to handle it safely.

One of the more disturbing challenges made to the 1982 Council and the Recreation Commission in particular, was by Reginald A. Cox, who said he was disappointed in the safety of the present arena. He challenged the town to have an independent professional engineer come in and give a full report on its true condition from a standpoint of structural safety. He further took issue with the statement made following an inspection of the building which declared it safe "under normal conditions". Mr. Cox has quite frankly, not been given in questioning the meaning of "under normal conditions", nor in querying the adequacy of the findings as made possible by the fall of the building. He has also asked how the town can sidestep this challenge. For political expediency it should be accepted and dealt with before the election.

Another serious allegation by Mr. Cox had to do with his applications for the position of recreation director — three in all. He charged that on none of the three occasions had he made application for the job, had he been given the courtesy of a reply or an interview. We feel that if applicants are called for interview for any municipal position, no valid reason for excluding anyone exists. Some explanation is called for here.

Mayor Holton was challenged on several major points. He was asked for accounts of the money Mrs. Denis Achison, has challenged him to come up with a surplus of at least \$37,000 at this year's end or be prepared to tender to the town the amount of \$37,000. He has said he had lost in the town's credit as finance chairman in 1981.

Devereaux Harry Peirce has challenged the 1982 Council to explain how it left contracts covering all town hall repairs in the amount of \$9,886.50 and then ran out of money to complete the work after having spent just over \$14,000 on the project.

As we can see, there are real challenges and they should be met.... We expect they will and we hope it will be at an early date.

## "THE OLD ORDER CHANGETH"

"The old order changeth" is a phrase which applies as well to governments as to any other thing under the sun. They too must be prepared to accept change in the light of changing needs and conditions.... What was good yesterday and the day before may not be good when viewed in the light of today and the dimly lit path leading into the tomorrow.

Two aspirants to Lindsey's Council in 1983 have expressed disaffection with county affairs as they affect Lindsey. 1982 Finance Chairman Russell Taylor thinks the bill the town has to foot for county purposes in relation to direct benefits it out of proportion. Former Finance chairman and ex-Mayor Harry Peirce would abolish the county system altogether or at least have a different arrangement. There are grounds for the thinking expressed by both men — Lindsey may pay a high price for its membership in the county family and on the basis of the now seemingly unfair "extra mil" levy for high school purposes and the town, the other members of the county family are, to a large extent, unwilling to "bend a little" in spirit of co-operation with the town. It is situations like this which do nothing to foster good relations at the county council level, and challenge the fairness of its control.

Only an ostrich with its head well down in the sand could fail to see that resentment of the county matters is fairly widespread and, as being the case, it is reasonable to predict that a review of the municipal government structure will come about before too long. We say this not in condemnation of the county system but in the belief that any system, long entrenched and to a degree unchangeable, might be changed by a good shaking up.

## AN ELECTION APPEARS ASSURED

Wednesday night's nomination meeting will be a complete surprise to most people if it doesn't result in an election being called 10 days later, at least for council. Content (they say) always certain for the majority will, if both incumbent Mayor Joseph Holton and Mayor-at-large Dennis Achison stick by their decisions to seek the office for 1983, and there is everything to indicate they will.

Coming down the scale, there is no sign yet that Reeve Lindsey Ford will be opposed in seeking re-election, nor has anyone suggested they would oppose Deputy-Reeve George Finney if he decides to stand again. The point — as far as councillors are concerned is a little different and one vacancy will have to be filled in view of the fact that Councillor Bob Payne has definitely stated he will not run at a second term of office. This could result in one of several things if only one person qualifying to fill the announced vacancy and therefore an action of all councillors; (a) a decision on the part of some pre-

# Reports and Remarks....

## THE PRESS IN A HURRY

An increasing concentration of British newspaper ownership in fewer hands and some financial participation by newspapers in television has, during the past few years, raised the question of whether this development constitutes a danger to the public interest in that an accurate presentation of news and the free expression of opinion may be affected as a result. A Royal Commission was set up under the chairmanship of Lord Shawcross in February 1981.

The Report of the Royal Commission contains the following main recommendations:

The setting up of a Press Admnalators Council with power to investigate and recommend the removal of newspaper proprietors from the Register of Proprietors.

The reconstitution with wide powers of the General Press Council (which was set up in 1953 following the 1950 Royal Commission of the Press) and increased lay representation on its committees.

The Control of commercial television interests by newspapers should be ended.

The efficiency of newspaper ownership should be improved.

## Concentration of Ownership

The report is in outline of the present state of the Press shows that since the report of the last Royal Commission on the Press in 1948 the number of newspapers generally has declined. Seventeen daily or Sunday newspapers have ceased publication and only four new ones have been started; and the number of weeklies has decreased.

The extent to which a few proprietors dominate the supply of news and opinion through the daily and Sunday Press has increased. Taking daily and Sunday papers together, the three largest undertakings (Daily Mirror, News of the World, and News Chronicle) now produce 65 per cent of the total number of copies and in 1981 comprised with 43 per cent in 1948. Speculation in the ownership of newspapers has been taken place among periodicals, though the range and diversity of the periodical Press makes it difficult to measure the extent of the concentration.

The potential danger to the public interest of further concentration of ownership and control in the newspaper press, by amalgamation, has been noted in the report states. "The concentration carries with it the potential danger of variety of opinion may be stifled. In the provincial Press the main danger of class ownership is that the local Press may be deprived of its local character. The Commission does not suggest, however, that there should be a wholesale prohibition of all future amalgamations or expansions. There can be no public interest, the report says, in preventing such transactions as the merger of The News Chronicle with the Daily Mail in 1960 or the amalgamation of the News of the World in 1961 when in each case the former would have gone out of existence in any event. There are, however, other possible circumstances in which amalgamations might take place which require scrutiny."

In any recent acquisition of Oshawa Press Ltd. by the Daily Mirror Group, for example, the financial interests of the shareholders were the only interest taken into account. This seems to be the sort of transaction which in future might justify scrutiny from the point of view of the public interest....

## CHRISTMAS FIRE SAFETY

It's not too soon to beat the following in mind: "Mead trees, for all practical purposes, don't burn but they conduct electricity. So use only leaded lighting. Strips of lights on the trees may create a dangerous shock hazard."

Plastic and metal-plastic trees will burn; use only ones clearly marked as made of slow-burning materials. "Those with built-in electrical systems should carry the Ontario Hydro or C.S.A. label so that they have been tested for electrical safety."

It's a message only natural that the Deffenbacher administration endeavours to "hang on by the skin of its teeth" pending a more favorable political climate for holding an election but the odds against its lasting that long are great.... It really should show the initiative and call another election. By doing so it would at least show the courage of its convictions and even if defeat it would at least have a chance to show the initiative of the nation's people for having sought a clear mandate.

The present arrangement at Ottawa is virtually making a laughing stock of the two-party system of government with strange bedfellows bunking together on all sides for the sake of imaginary political expediency. The only way to get the country back on its feet is while they're doing it, they are losing face with the public.... Better no bedfellow at all than a fake ally.

Leadership of the desk-quitting party for some fortnight ago, it is a shame that the man who by men, neither ask nor give the other where the public's best interests are to be served as they are to be served that Canada's best interests are being served now.

# Attack Somerville methods "Crackpotism" Reeve

## Cottagers lay charges before select committee

Somerville Township officials and procedures were attacked here by "crackpot" voters. Rodgers attacked the responsibility in allowing 22 the ratemakers' irregularities in setting its bid to get a court order compelling the assessment roll to "soak the cottagers".

Spokesman for "Somerville Cottagers Association," Tom Rodgers told the Ontario Legislature's Select Committee on Municipal Law that it had been "absolutely for some time" that he had been "abused for some time" by the township officials he had been told to soak the cottagers.

He said a qualified assessor and 365 names of wives of an experienced real estate owners were left off; also agent had examined the assessment roll and not inspected on time and there was no by the properties.

"Many cases of illegal act of time: Properties were not properly described in the assessment roll and 365 names of wives of an experienced real estate owners were left off; also agent had examined the assessment roll and not inspected on time and there was no by the properties."

"Many cases of illegal act of time: Properties were not properly described in the assessment roll and 365 names of wives of an experienced real estate owners were left off; also agent had examined the assessment roll and not inspected on time and there was no by the properties."

LIGHTS—Check lighting sets for frayed wires, loose connections and broken sockets. Never use candles on or near the tree. Use flameless candles. Inside decorative lights are turned off before retiring or leaving the house. For outdoor lighting, use only sets labeled for outdoor use by the Ontario Hydro or C.S.A. When setting up or adjusting keep power off to avoid shock hazard. Do not overload circuits.

DECORATIONS—Use non-combustible, decorating materials (metal, glass, aluminum, etc.) where possible. If combustible — like flocking — be sure they are "flame-proofed." Untreated burlap, polystyrene foam and paper lights easily burn intensely. Don't use polystyrene foam for candle holders or for table or mantle decorations where candles are also used.

WRAPPINGS—Don't use gift wrappings prominently. Don't burn them in the fireplace.

AND—Watch your smoking habits around the tree. Cigarettes and matches can start a burning. Most of all, plan in advance escape routes and other actions needed for the life and safety of your family in case of fire.

Adapted from, National Fire Protection Association.

The basis of assessment in this instance was improper; Some hoices of court revision decisions did not state that the parties' receding the assessment roll, then they had a right to appeal. When charges were made in the assessment no new assessment notices were given, as required by law.

## BEFORE JUDGE

Mr. Rodgers said the whole matter had been placed before court judge John Currie, but "so is muddled it night" to take a long time to sort out.

Mr. Rodgers claimed there was "laxity" between the Department of Municipal Affairs and its municipalities, and that the department "just doesn't know what's going on."

He said the director of the department's assessment branch, said the department "may know about these things, but we can do do."

Mr. Rodgers countered that he wrote Mr. Sloan several times, "but you didn't ever answer me or come up to see what was going on."

When Vernon Singer (Liberals) York Centre told committee chairman Holles Beckett (P.C.) York East that "this is clearly a case of proven municipal illegality," Mr. Beckett replied: "That may be so, but you could say this was just the rural way of life."

"We are now planning the acquisition of lower James A. McArthur to prepare an authentic report of the Township administration which will be presented to the Legislature in this matter as soon as an appointment can be arranged."

# Declares charges untrue

The charges made before the Select Committee of the Ontario Legislature that Somerville municipal officials committed 22 irregularities in setting up its assessment roll "to soak the cottagers," is the work of a bunch of crackpots," Reeve Boyd Austin declared Friday night.

"The charges laid by a delegation of summer cottagers owners from the Somerville Township are not true," Reeve Austin emphatically declared. "They say 70% of the assessment of Somerville is from cottagers; this is incorrect. The figure should be 35%." Also they claim last year's roll was not returned on time. It was returned on time, he added.

"To straighten out this matter a committee appointed by Somerville council will make an appointment with the Select Committee of the Legislature and will submit a correct report of these Township or Somerville affairs which are being disputed."

"We are now planning the acquisition of lower James A. McArthur to prepare an authentic report of the Township administration which will be presented to the Legislature in this matter as soon as an appointment can be arranged."

## Asks county to recognize pay guards right to conciliatory service

An appeal was made to the County Council of York on Monday by 17 employees of the Board of Works at Wallaceburg was a striking example of the cost of strikes, he stressed, noting that in this particular case, the Town of Wallaceburg has been forced to employ 190 civil servants for the services of 190 municipal constables and nine firemen, besides other employees. Mr. Atkins also mentioned the strike of Hydro employees in 1953 which was costed by the town at \$100,000.

Conciliation was quick to be in small groups in other parts of Ontario. The speaker cited many instances under the Act, especially strikes of the high cost of county road employees, but strikes where conciliatory service the Lindsay pay guards are might have been of value, he noted.

## Santa Claus comes to Lindsay in style

Santa Claus came to Lindsay in grand style on Saturday morning under a brilliant sky with just enough snow on the overnight fall to give the landscape a Christmas-like appearance. Countless people turned out to welcome him and an excellent parade arranged by the Lindsay Chamber of Commerce heralded his arrival. Here are some of the scenes as the parade passed the throng of spectators who afterwards adjudged it to be among the best ever staged here.

The Lindsay's Kinsmen Club's "Santa's Kin Express", a realistic replica of an old-time steam locomotive complete with "cow catcher", captured the fancy of many. Here it almost obscures itself in smoke as Engineer Jim Wilton steers the firebox.

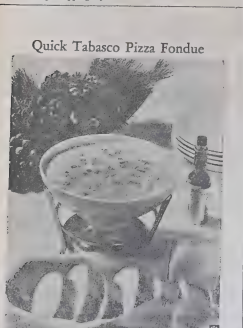

Dr. Premier Lucile M. Frost and Mayor Joseph Hultman rode in the back seat of the lead car driven by Industrial Commissioner S. R. Pitts with former bank manager W. J. Bundeche beside him.

The Lindsay's Kinsmen Club's float depicted a relaxed family around the Christmas tree.

Lindsay's newest majorette group — The Twenties — pass in high-stepping style.

Quick Tabasco Pizza Fondue

During the festive holiday season friends are liable to drop in on the way to the office for a quick dinner. It's easy to do with the Quick Tabasco Pizza Fondue. A piping hot pizza is topped with melted cheese and served with a piping hot fondue. All that's needed are a piping hot pizza and a piping hot fondue. All that's needed are a piping hot pizza and a piping hot fondue.

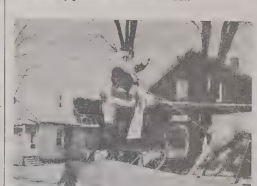

In heavy steamed, combine tomatoes, Tabasco and oil. Place over low heat and bring to a boil. Simmer 10 minutes in closed pot. Pour in piping hot pizza and cook about a minute or so until piping hot. Serve with piping hot pizza. Serve with piping hot pizza. Serve with piping hot pizza.

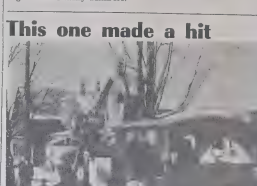

A group of Ommec majorettes steps smartly along.

Central Senior School got their school names well out in front as they paraded in Western costume.

Santa Claus himself was in fine fettle as he waved and greeted his many admirers.

This entry in the Santa Claus parade at Lindsay on Saturday made a hit with young and old. A mighty good replica of an early wood-burning type steam locomotive, it was built in the shops of George Pinner Lumber Co. and the appropriate insignia "Santa's Kin Express". Complete with cow-catcher, whistle, bell, whistle and real smoke belching from its stack, the colorful decorated locomotive entry went over big.

## Lindsay lawyer new county judge; predecessor transfers to Cobourg

A widely known Lindsay lawyer — R. H. Richardson — will succeed Victoria County Judge John C. N. Currie, formerly of Peterborough, who will be transferred to the Northumberland and Durham Counties.

The appointment and transfer were announced on Saturday by the County's Justice Minister, Donald Fleming.

Born 1916 in Campbellford, a son of a retired dentist, Mr. Richardson, "Bill" to his friends, was called to the Ontario bar in 1946, and took up practice the following year in Lindsay, later becoming a partner in the firm of Frost, Porter and Richardson.

His brother Ross is a dentist in Port Hope and another brother is a bank manager at Smiths Falls. A sister Mrs. Arthur Loucks (Edin) lives at Ajax.

Mr. Richardson is a member of the Sir Sam Hughes Branch of the Royal Canadian Legion in Lindsay, and of the Officers Mess, 45th Medium Battery R.C.A. (Militia), and served in the Second World War as staff pilot in the RCAF.

Married to the former Barbara Frankish of Toronto, he and his wife live on Colborne St. W. with their two daughters, Beverly, 15, and Bonnie, 13.

Commented former Ontario Premier Frost, partner with Mr. Richardson for 14 years, "He is an outstanding lawyer, and I am sure he will do an excellent job."

Magistrate I. J. Moore told "The Post" that practicing in Peterborough he would be a credit to both bar and bench.

When asked about his hobbies, Mr. Richardson said he had never found too much time for one of his favorite hobbies, golf, so has recently, to give him a "change of pace" to speak, taken up the collecting of "Canadiana" period pieces.

"It all started," he said, "with me finding an old chest, called a blanket box in the past, in the attic at our house that used to belong to my grandfathers, then later finding other tools and equipment that he used to use."

"Now we have a nice selection of various period pieces which we are quite proud of."

## Ops reeveship 2-way fight, 4 seek 3 council seats

Biggest surprise coming out of the election followed the annexation of 2,250 acres of Ops by Lindsay.

Nominated for council and already qualified: Moselem Jones (two years service); Milburn Hutchings (two years); Norman Nugent (five years); and Maurice Yacoub, Owen Morden, township farmer, declined the nomination.

Shirley Currant, former of R.R. 6, Lindsay, has completed 10 years service in Ops Council, including two years as Reeve and one as Deputy Reeve. Barney Rogers, operator of the Driveline Theatre, Downeyville Road and resident of Lindsay has served Ops Township two years, (1961 and 1962) as councillor.

Councillor Stanley T. Reed of Reboro was given an acclamation to the office of Deputy Reeve on Mr. Rogers also nominated to that position declining in favor of the Reeveship. Mr. Reed, with a six year service record in Ops Council was not present at the nominating meeting. The office of Deputy-Reeveship was restored to Ops Township this year with the electorate being increased to over 1,000 after a lapse of one year. This office was instituted one year ago.

## DIVERTICULOSIS! DON'T WORRY AND FOLLOW DOCTOR'S ORDERS

Dear Dr. Steinhilber: My doctor says that X rays show that I have diverticulosis. It tells me not to worry about it. Is there anything I can do?

Dr. B.

Comment: Yes. Follow his advice. Observe your gut to get yourself into a better state of mind. Diverticulosis sounds impressive and perhaps dangerous. Nevertheless, it is a relatively common condition, which most people don't know they have until they take X rays for one reason or another.

We don't know the cause of these little out-pouchings in the bowels. Some say that constipation may contribute but it is not the only cause. All you need to know is that most people with diverticulosis through life without any complications.

If they have any discomfort at all, it is a good idea to lubricate the bowel occasionally with mineral oil (not nightly) and to keep away from roughage in the diet and from vigorous

tables which irritate the bowels. Experience will soon teach you which foods irritate you. Otherwise, as your doctor says, you can forget about it.

Occasionally, the pouches may become inflamed. We call this complication diverticulitis. Sometimes antibiotics will take care of it; at other times, an operation is necessary.

But as for diverticulosis itself, I tell people none of this. It is a relatively common condition, which most people don't know they have until they take X rays for one reason or another.

## DILANTIN IN EPILEPSY

Dear Dr. Steinhilber: My daughter is 16. When she was around 8 she had a fainting spell, and was out for about half an hour. That was in 1953 and they found nothing wrong. She had another attack in 1954. But she came out of it by the time another doctor came and he said he could find nothing wrong either.

In 1956 she passed out again. This time we took her to a children's specialist who prescribed dilantin pills which

she has been taking until now. She has not had an attack in six years. My question is: Her doctor died and we are all out of dilantin. Can she get along without it, or shall we get it refilled?

Comment: The first thing to do is to get a new family doctor who will be capable of the job & give your daughter the advice she needs. I think it is about time that your daughter saw a neurologist in consultation.

You have not mentioned an EEG (electroencephalogram) brain wave test which I think she ought to have. The dilantin, which has done such a good job, is something you shouldn't drop until you are sure it's safe to do so. When things are going well, there's a human tendency to get careless.

## DOES FLU VACCINE WORK?

Dear Dr. Steinhilber: Is flu vaccine effective? Mrs. L. Comment: In a recent test on 6,000 Air Force men a vaccine of killed viruses mixed in oil did a good job. It was 90 per cent effective against Type A-2 influenza and adenovirus.

## Nestleton

# STOP!... Killing yourself

By Peter J. Steincrohn, M.D., F.A.C.P.

## ACUTE GASTRITIS

Dear Dr. Steincrohn: What is meant by acute gastritis? Is it serious? Mr. H. Comment: It is a formal name for a rather informal and common ailment which usually goes by the name of upset stomach. The cause are, of course, many. Fever alone can do it. It can be a part of symptoms of serious illness like failing kidneys, or an attack of urinary tract infection.

Ordinarily an uncomplicated organ, the stomach sometimes reminds us that it doesn't like to be taken for granted—and kicks over the traces when least expected. For example, you may be an habitual over-eater and get away with it 90 times out of a hundred, but come the time the stomach may show its resentment at being overloaded by bringing symptoms of nausea and vomiting. Sometimes the intestine joins in the revolt and the patient also has diarrhea.

In like manner, overwork may occasionally cause acute gastritis; more commonly, by too many alcoholic drinks. There are times when the walls of the stomach finch at a certain food which they are allergic. So the stomach

tries to expel it. Some people, with especially sensitive stomachs get acute gastritis if they drink ice water; others if they take especially hot drinks. There are patients who get an upset stomach when they take simple medicines which have no bad effect on other people. The basic treatment is simple: give the overburdened or insulted stomach a rest. Fasting for at least a day—taking occasional hot tea—sometimes with hot toast—is the best of all treatments.

Simple acute gastritis should not last more than a few hours. If stomach pain, nausea and vomiting occur in the early morning hours for example, don't go through another night without getting medical help if the symptoms haven't cleared up by the most part by afternoon.

It's normal to feel "washed out" after a session of vomiting, nausea and diarrhea—but it isn't normal for the acute discomfort to last too many hours.

I haven't mentioned more drastic to take; if you need them, they will be in your doctor's jurisdiction. For the most part, as I have said, all you need to do for the ordinary

stomach (acute gastritis) is to give the stomach a long-needed rest.

## HOW MUCH DIGITALIS?

Dear Dr. Steincrohn: Is it all right to take digitalis for months? Mrs. T. Comment: Under your doctor's care it is all right to take digitalis for months. All right! It's almost like asking if it's all right to put Mickey Mantle in the clean-up spot. Digitalis is a champion which has kept many sick hearts beating for years. By a clutch, it has saved many lives.

People have got the idea that digitalis is a dangerous drug. Like any other potent drug, it may be potentially harmful, but also, like any other, it is helpful and harmless when taken in the right amounts in carefully calculated.

Dear Dr. Steincrohn: Is it true that some orthopedists treat a sprained ankle by having the patient bear weight on it from the Mr. L. Comment: Some say it promotes earlier healing. But they make sure they're not dealing with a fracture when they allow early motion.

## Victoria County Council Briefs

### More Waterfront Lots

Victoria County has communicated with the Department of Transport at Ottawa requesting more waterfront lots at the new County of Victoria Park near Kirkfield in order that a wharf may be built for the use of boatsmen. It was held that the land could be leased for a nominal amount on a six-month basis.

### Commended On Work

Approval was extended to Reeve Cammack of the county property committee for work done in connection with the county building. Members of Council thought a good job has been accomplished in connection with repainting the court room and the judge's chambers and that something should be done to freshen up the crown attorney's room.

### Suggests Sex Slave

Recommendations from the recent jury's presentation were listened to, many of which have already been carried out. It is proposed to purchase an incinerator for the burning of old papers which Clerk Weldon said amounted a bundle or more from the offices. Deputy-Reeve Finney of Lindsay thought it would be more of an old box stove, placed it in the basement where it is the good chimney.

### On-Well Card

A get-well card was signed by every member of council and will be sent to Reeve George Stephenson of Oransee who is in a patient in a Peterboro hospital.

### Consider Paving Lot

The question of paving the court house parking lot will be studied by the property committee.

### New Uniforms, Shirts

New uniforms for guards at the J.E. Ferguson school and shirts from Glaxo's.

### First Appearance

Deputy-Reeve Les Res of Eldon Township appeared at the first session of the council. He succeeds the late Deputy-Reeve Logan.

## A LOVELIER YOU

By MARK SUE MILLER

**DIT WITHOUT SIDE EFFECTS.** A lovely writer: After a few days of dieting, I get to work in the kitchen I have to give up. I must now believe, please someone.

For all "week-long" diets, this answer: You may get hungry while you diet, but if you follow an approved regimen, you would never starve in the midst of weakness. Actually, you would be well-fed. For when there is a real back in food, the body consumes its own fat. Not a pretty face, but real!

These "approved" regimens are the key to satisfactory weight loss without the side effects of crash hunger or fatigue. Always use the approved list: the 120-calorie diet that reduces a variety of diets, with some emphasis on proteins and vitamins. A pattern for each follows:

**Breakfast:** Fresh juice, unadorned with sugar and a little protein, meat, spread lightly with apple butter or 1/2 tsp. margarine. Or cereal with skim milk and a little bit of calorie sweetener, coffee, 1 teaspoon sugar and skim milk.

**Lunch:** Beef, beefsteak, tomato soup, tomato and meat of salmon, stuffed with watermelon, fish and dill's mayonnaise, 1/2 tsp. margarine, 1/2 tsp. margarine.

**Dinner:** Vegetable, juice, cocktail, 1 (3-ounce) olive breaded liver, 1 large baked chicken, chopped spinach, well-drained and seasoned with meat, to butter, 1 small hard-boiled, 1 teaspoon butter, small slice sponge cake, black coffee.

Too, you may have a small morning glass of skim milk—just what you might have a cocktail up. If you ever do, though, it would be the spirit and not the flesh that weak.

How do you mean? You always liked Bob. I still do, but right now he doesn't know whether he's coming or going.

Why can't you trouble?

No woman trouble? It's his mother.

I thought Mrs. Anderson seemed very nice.

She is—when she's sober.

What do you mean?

Why, she drinks like a fish—all day long. Bob can't ever have anyone in the house.

That's not mean! You always liked Bob.

If that's true, it's a pretty tough situation for the whole family.

Oh, it's true all right. Everybody knows she's an alcoholic.

That kind of drinking is really a sort of illness. Mrs. Anderson never experienced help. I hope that Mr. Anderson and Bob value their.

Well, something will have to be done soon, or Bob won't have a home at all.

DO YOU KNOW:

—that there are more than 90,000 alcoholics in Ontario?

—that at least 13,000 of them are women?

—that alcoholism occurs in every area of the population regardless of race, income level, occupation, intelligence, education, religious persuasion, or ethnic background?

—that you can learn the up-to-date facts about alcoholism by writing to—

## NUCLEAR GOITER NEEDS CHECK FOR CANCER

Dear Dr. Steiner: I am scared to death. For the past few months I have noticed a little lump on the right side of my neck which goes up and down when I swallow it. I don't seem to be getting any larger. I haven't gone to my doctor because I'm afraid he may say it's cancer. What would you do, Alex?

Comment Now you know what I'm going to advise. It's only benign masses for you to know I'll say forget it. How ever I can't. Any time whether it's in the neck or anywhere else, deserves to be seen, felt and observed by the physician. For cancer is a possibility, and the earlier treated, the greater the chances for full recovery.

Far from what many people believe, nodules (lumps) in the thyroid are relatively common. At least 5 million people in the United States have such enlargements. Of this large number only about 4,000 turn out to be cancerous nodules in the thyroid gland.

As time is always the most important consideration, I advise you, Mrs. T., to take your age and sex into account, and see your doctor as soon as you can.

as you can. From what I've said, you can see that your chances of having cancer are quite small. Nevertheless, you gamble if you don't find out.

In many cases there is need for operation, but no need for a heading rush into surgery. Some doctors advise immediate surgery on discovering a thyroid nodule. But in view of the very small percentage of cancerous involvement in the neck, and assess the whole business without becoming frantic about it.

WHEN A DOCTOR IS GUILTY For Mrs. H. Remember that many patients have a father-child relationship with their doctor without realizing it. When this is marked, the patient will often react like you have to your doctor's apparent disinterest when you were in his office recently. Give him another chance. It is likely that it wasn't a personal remark. Perhaps he had a lot on his mind at the time or he may really have been feeling bad himself.
